

Question for written answer E-003483/2022
to the Commission
Rule 138
Cindy Franssen (PPE)

Subject: Revision of the directive on chemical agents at work to incorporate new limit values for diisocyanates and lead

On 28 June 2021, the Commission presented the EU Strategic Framework on Health and Safety at Work 2021-2027.

It made provision for new limit values for diisocyanates and lead to be submitted in 2022 in connection with revision of Council Directive 98/24/EC of 7 April 1998 on the protection of the health and safety of workers from the risks related to chemical agents at work (fourteenth individual Directive within the meaning of Article 16(1) of Directive 89/391/EEC).

1. How is the Commission organising the assessment of the current directive?
2. How has the consultation process involving the social partners turned out?
3. When in 2022 will the Commission present a revised directive?
