

**Question for written answer E-003919/2022
to the Commission**
Rule 138
Petar Vitanov (S&D)

Subject: Relations with Morocco

Morocco and the EU held a high-level dialogue on migration on 17 March 2022. This dialogue is an example of a positive initiative that reinforces the EU's partnership on migration with Morocco, which is a strategic area for the stability and security of the EU and its neighbourhood.

This highlights the importance of developing holistic and win-win partnerships with the EU's neighbouring countries, in particular Morocco. Managing migration flows requires a holistic approach to be developed. This includes responding to the root causes of migration, supporting development and aiding the fight against irregular migration and human trafficking.

Given the importance of the issue of migration within the EU-Morocco partnership:

1. How will the European External Action Service and the Commission sustain this partnership with Morocco and how will they make it a model for the region and for Africa?
2. What measures will the Commission take to support Morocco's important efforts in the fight against illegal migration?
