

**Question for written answer E-004133/2022
to the Commission**

Rule 138

Patryk Jaki (ECR)

Subject: Is the Commission doing anything to monitor the support that Member States are providing to Ukraine?

1. Does the Commission have data on the support that the Member States have provided to Ukraine since the start of the invasion in February 2022? Poland is incurring huge costs in terms of humanitarian and military support, and support for millions of refugees who have fled the war. It is doing this in the name of values, of the future of the continent as a whole, and of the European Union. As a proportion of Poland's GDP, this is a heroic amount of aid.
2. Is the Commission doing anything to monitor the support that Member States are providing to Ukraine?
