

**Question for written answer E-000067/2023
to the Commission**
Rule 138
Benoît Lutgen (PPE)

Subject: New conclusions on best available techniques in the context of Directive 2010/75/EU

On 12 December 2022, the Commission published new conclusions on best available techniques for the chemical sector. That document serves as a reference for setting permit conditions for installations falling within the scope of Directive 2010/75/EU on industrial emissions. The Directive is currently being revised and the proposal seeks to amend the scope for certain agricultural sectors.

1. Will the Commission publish new conclusions on best available techniques for the poultry sector?
2. Will the Commission publish new conclusions on best available techniques for the pork sector?
3. Will the Commission publish new conclusions on best available techniques for the beef sector?
