

**Question for written answer E-000211/2023
to the Commission**
Rule 138
Sylvie Guillaume (S&D)

Subject: Sound administration and transparent management of the Asylum, Migration and Integration Fund by the Member States

Several French NGOs are facing problems relating to the French Government's management of the Asylum, Migration and Integration Fund (AMIF). These problems include: abnormally long project cycles and funds being transferred several years after projects belonging to the 2014-2020 programme have ended; projects funded by the AMIF (2021-2027) being launched in the absence of a signed agreement by the end of 2022, without an advance being transferred; the payment of sizeable cash advances which placed project developers in a difficult position; failure to publish the AMIF national programme for 2021-2027.

How does the Commission intend to ensure that Member States administer the AMIF soundly and manage it in a transparent manner?
