Subject: Compliance with milestones and goals: Recovery and Resilience Facility,
NextGenerationEU

Spain's Recovery, Transformation and Resilience Plan was adopted on 12 July 2021. Both the Council's executive decision, which approves that plan, and the later operational arrangement contain the calendar of milestones and goals that Spain has to fulfill in order to receive every step of the funding under the Recovery and Resilience Facility.

During the second semester of 2022, the Spanish Government had to fulfill 43 milestones and 15 goals, which it will later have to justify in its payment request for the fourth step of the funding, which has to be presented in 2023.

Considering the above, I ask the following questions:

1. Has the Spanish Government postponed the fulfillment of any milestones or goals which had to be achieved by 31 December 2022, in order to be able to present the payment request for the fourth step of the funding?
2. Has the Spanish Government requested the modification or relaxation of the content of any milestones or goals which had to be achieved by 31 December 2022, in order to be able to present the payment request for the fourth step of the funding?
