

**Question for written answer E-000483/2023  
to the Commission**

Rule 138

**Moritz Körner** (Renew)

Subject: Prohibition of software applications 2

In its answer to written question E-002079/2022, the Commission failed to reply to the questions it was asked, and to reply in the way it was asked to reply.

This time, could it please actually answer as requested. The question was NOT whether the legal proposal of the Commission bans access to software applications such as WhatsApp, TikTok, Instagram, Snapchat or Facebook for users under the age of 18.

The question was whether the Commission rules out the possibility that the obligations laid down in the proposal may lead to the apps WhatsApp, TikTok, Instagram, Snapchat or Facebook being banned for users under the age of 18?

Again, I ask the Commission to answer with a simple yes or no, before explaining its reasoning in detail.
