Subject: Whereabouts of the armoured vehicles and weapons seized by IRINI

The EU military mission IRINI is responsible, among other things, for enforcing the embargo on military equipment to Libya. On several occasions, cargo has been seized from ships, including weapons and armoured vehicles.

1. How many armoured vehicles and how many weapons have been seized in connection with the EU military mission IRINI, and what is their value?
2. Where are the armoured vehicles and weapons, and to what extent has it been possible to identify their owners?
3. Which countries have shown an interest in the armoured vehicles and weapons, and to which countries are they to be given or sold?
