**to the Commission**  
Rule 138  
**Virginie Joron (ID)**

Subject: How many millions of people suffer from 'COVID vaccine' side-effects?

At her hearing in Parliament on 27 March 2023, the Executive Director of the European Medicines Agency (EMA) stated that doctors and victims had reported to the EMA 1.7 million side-effects after receiving a dose of a COVID-19 'vaccine'.

The number of people affected does not appear to be listed on the EMA website.

On the basis of reports made to the EMA and included in the EudraVigilance database, in total, how many people have suffered from side-effects after receiving a 'COVID vaccine'?
