

**Question for written answer E-001354/2023
to the Commission**

Rule 138

Jean-Paul Garraud (ID), Gilles Lebreton (ID)

Subject: New wine product labelling requirements

From 8 December 2023, the list of ingredients and nutritional information will have to be included on the labels of wine products.

However, the procedure for implementing these new rules remains unknown, given that the delegated act will only be adopted in July. It will simply be impossible for winegrowers to keep to this timetable, as it will mean having to urgently adapt to the new labelling requirements at a time when work in the vineyards will be in full swing.

1. Is the Commission prepared to postpone the entry into force of these rules until after 8 December so that they would only become applicable from the 2024 harvest?
2. How does the Commission plan on supporting winegrowers during this transition, both financially and administratively?
3. Will the Commission be lenient in its implementation of these rules during the first year?
