Subject: Conditions for and entitlement to the German energy subsidy

Commissioner Nicolas Schmit stated in his answer to Written Question E-000476/2023 with regard to the nature of the German energy subsidy and the conditions for entitlement to it that the relevant Commission services had received the German authorities' reply to their questions on 1 February 2023 and were in the process of analysing it.

1. Has that analysis been completed in the meantime?
2. If it has, what conclusion has the Commission reached?
