to the Commission**  
Rule 138  
**Peter Jahr** (PPE)

Subject: Milk market

1. In the event of obvious imbalances on the EU milk market, what scope is there, according to the Commission, for market intervention?
2. In the Commission's view, is voluntary supply restraint an appropriate instrument for regulating market volumes on the EU milk market?
3. In the Commission's view, is there a clear definition of disturbance to market balance and of a market intervention threshold for the Commission?
