

**Question for written answer E-002232/2023
to the Commission**
Rule 138
Peter Jahr (PPE)

Subject: Plant protection products

1. Is the Commission aware of instances where maximum permissible levels of plant protection products or other chemical substances authorised for use in organic farming have been exceeded and, if it is, what is the breakdown by country and also quantitatively?
2. Is the Commission aware of instances where conventional plant protection products within organic farming have been authorised on the basis of a derogation and, if it is, what is the breakdown by country and also quantitatively?
