

**Question for written answer E-002568/2023/rev.1  
to the Commission**  
Rule 138  
**Nadine Morano** (PPE)

Subject: Fires in Greece

For two weeks, the biggest ever fire recorded in the European Union has been devastating Greece's Dadia Park. More than 80 000 hectares of this protected Natura 2000 area have already been destroyed. In the summer of 2023, more than 70 000 hectares were also on fire in other parts of Greece.

In this context:

1. Can the Commission state what solidarity measures have been deployed to help Greece?
2. What lessons does the Commission intend to draw from these disasters, particularly as regards the Civil Protection Mechanism?
