Subject: Raising awareness in order to end the war

The war in Ukraine has been going on for more than one and a half years with no end in sight, and more than 17.6 million Ukrainians are in need of urgent humanitarian aid. Both sides are heavily armed and are constantly being rearmed, making it clear that weapons will not end the war.

People need to learn how to make peace, not war. Raising consciousness and spirituality is the only way to end wars, because then people will oppose wars by all means and seek peace through diplomatic means.

Can the Commission say what measures it will take, with a view to helping the Member States educate people?
