Subject: Deployment of a mobile surveillance system (MSS) by Frontex

Frontex is deploying a mobile surveillance system (MSS) at the land border between Romania and Bulgaria, as well as in other locations.

1. How many MSS has Frontex procured so far, and who manufactures these systems and the technical equipment installed within them?
2. So far, what have been the costs in relation to each individual MSS and what further procurements have been planned?
3. So far, in which countries have MSS been deployed and which other countries or missions have requested them?
