

**Question for written answer E-003197/2023
to the Commission**

Rule 138

Jordan Bardella (ID)

Subject: European Economic Recovery Plan and increase in France's contribution to the EU

In its report on the impact of the EU budget on France's budget published on 25 July 2023, the French Court of Auditors estimates that, as a direct consequence of the post-COVID European Economic Recovery Plan, France's annual contribution to the EU could increase by EUR 2.5 billion from 2028.

Does the Commission agree with that estimate?
