

**Question for written answer E-003390/2023
to the Commission**

Rule 138

Markus Buchheit (ID)

Subject: Track record on free trade agreements

The free trade negotiations with Australia and the framework agreement with Switzerland have fallen through. The problems with the USA regarding steel and aluminium have also not been resolved and the Mercosur agreement has not been ratified. Apart from the agreement with New Zealand, what trade policy successes in terms of concluding free trade agreements has the current Commission achieved since entering office?
