

**Question for written answer E-003530/2023/rev.1  
to the Commission**  
Rule 138  
**Loucas Furlas (PPE)**

Subject: New breach of the buffer zone

The occupation forces in Cyprus repeatedly violate the status quo. This time, Turkish military forces entered the buffer zone and installed a metal mast with a rotating thermal imaging camera and an antenna on a derelict house in the Agios Dometios area.

The UN peacekeeping force is monitoring the situation. However, around 40 Turkish soldiers hurled insults at and threatened members of the peacekeeping force and local residents.

In view of this:

What steps could the Commission take to stop the illegal activities being carried out in the buffer zone by the so-called 'authorities of the occupied territories'?
