Subject: Clarification on the new 'European sport model' proposed by the Belgian Presidency of the European Union

The stated priorities of the Belgian Presidency of the Council of the European Union for culture and sports are to enhance and develop the European Education Area with the aim of promoting lifelong learning and helping to effect the digital transition in the cultural sector.

In particular, the Belgian Presidency claims to want to adopt a new 'European sport model'.

Can the Commission therefore say:

1. What view it takes of that project, and
2. What steps it intends to take to make it a reality?
