

**Question for written answer E-000147/2024
to the Commission**
Rule 138
Paolo Borchia (ID)

Subject: Appropriateness of Community funding for the 'Insieme si può' publicity campaign

The LGBTI+ anti-discrimination centre in Ravenna has launched a publicity campaign entitled 'Insieme si può' ('Together we can').

According to the information provided on the Centre's website, part of the costs are borne by Community co-financing under the NOP for Inclusion (ESF 2014-2020 – Axis 4, 'Administrative Capacity' – Specific Objective 11.3 – Action 11.3.3).

The range of matters covered also include surrogacy, which is a crime in Italy.

The chapter on expenditure to which the Centre refers relates specifically to training activities, and it is clear from *La Verità*, an investigative newspaper, that in this case the expenditure was justified as being for training initiatives for cultural mediators.

In view of this:

1. Does the Commission consider the funding granted to the initiative described above to be appropriate?
2. How much does the funding in question amount to?
