

**Question for written answer E-000229/2024
to the Commission**

Rule 138

Rovana Plumb (S&D)

Subject: Climate change and the lives of city residents

Protecting citizens' health is a top priority.

Recently the 60th session of the Intergovernmental Panel on Climate Change (IPCC-60) approved the drafting of a Special Report on Climate Change and Cities.

On 18 January 2024, the European Scientific Advisory Board on Climate Change (EUSABCC) published a report entitled 'Towards EU climate neutrality: progress, policy gaps and opportunities'¹. In this report, the EUSABCC recommends a series of actions to put the EU on track towards climate neutrality.

Does the Commission envisage contributing to the IPCC special report or updating/aligning the EUSABCC recommendations in order to protect citizens' lives?

Submitted: 25.1.2024
