

**Question for written answer E-000444/2024/rev.1**

**to the Vice-President of the Commission / High Representative of the Union for Foreign Affairs and Security Policy**

Rule 138

**Tom Vandenkendelaere (PPE)**

Subject: Action Plan on Military Mobility

One major EU project to enhance our security and defence involves optimising military mobility within the EU. That aspect of our security policy is addressed in various documents, such as the Strategic Compass, the EU-NATO declaration and in the Commission's specific action plans on military mobility, further harmonisation of all aspects of military mobility occupying centre stage in this connection. Now that the Action Plan on Military Mobility 2.0 is one year old:

1. Can the Vice-President of the Commission / High Representative of the Union for Foreign Affairs and Security Policy (VP/HR) provide an update on the implementation of that action plan, which, as was announced, was to be submitted by November 2023?
2. Will the VP/HR put forward new initiatives on military mobility by 2026?
