

**Question for written answer E-000792/2024  
to the Commission**

Rule 138

**Ciarán Cuffe** (Verts/ALE)

Subject:     Creation of an agency for road safety

Given the tens of thousands of people who lose their lives or are seriously injured on Europe's roads every year, more must urgently be done to address road safety. The Commission set 2022 as a deadline for assessing the need for a road transport agency as part of its Sustainable and Smart Mobility Strategy (COM(2020)0789), while back in October 2021 Parliament called on the Commission to establish a road safety agency in its resolution on road safety.

In light of this:

1.    Could the Commission provide an update on this assessment and its conclusions? Will the assessment be made public and if so, when?
2.    Could the Commission provide as extensive a list as possible of all the tasks such an agency would perform?
