Subject: Transposition of the directive on reducing the environmental impact of plastic

Directive (EU) 2019/904 on the reduction of the impact of certain plastic products on the environment was adopted on 5 June 2019. Subject to a number of limited exceptions, Member States had to transpose these new rules, which are essential for protecting the environment, by July 2021.

1. Have all Member States now correctly transposed this directive correctly?
2. Will Member States that have not yet done so be penalised?
