

**Question for written answer E-000928/2024
to the Commission**
Rule 138
Cindy Franssen (PPE)

Subject: Transposition of the directive on aviation's contribution to the emission reduction target

Directive (EU) 2023/958 on aviation's contribution to the Union's emission reduction target was adopted on 10 May 2023. It imposes stricter requirements to reduce emissions from what is a pollution-producing sector and speed up action to combat climate change.

The directive had to be transposed by Member States by 31 December 2023.

1. Can the Commission say which Member States had transposed the directive by 18 March 2024?
2. Will Member States that have failed to meet the deadline be penalised?
