

**Question for written answer E-000941/2024
to the Commission**
Rule 138
Cindy Franssen (PPE)

Subject: Follow-up question: inventory of accessibility infrastructure on the railways

In March 2021, the Commission adopted its disability rights strategy for 2021-2030.

Included in this was a projected inventory of railway infrastructure facilities by 2022, the purpose being to identify not only the accessible parts of railway stations but also the remaining obstacles and barriers to accessibility.

In its answer dated 13 September 2022 (E-002187/2022(ASW)¹) the Commission stated that the project had been delayed because of a change of contractor and would be delivered in 2023.

1. Is the inventory now available?
2. How will the Commission encourage Member States to remove existing obstacles as soon as possible?

Submitted: 26.3.2024
