Amendment 15
Jadwiga Wiśniewska, Alexandr Vondra, Anna Zalewska

Draft motion for a resolution
Recital A

Draft motion for a resolution

Amendment

A. whereas the Paris Agreement entered into force on 4th November 2016 with 185 of the 197 Parties to the Convention having deposited their instruments of ratification, acceptance, approval or accession to the UN (as of 5 September 2019);

A. whereas the Paris Agreement entered into force on 4th November 2016 with 185 of the 197 Parties to the Convention having deposited their instruments of ratification, acceptance, approval or accession to the UN (as of 5 September 2019); *whereas this is by far the farthest reaching INDC among all the main global economies;*

Amendment 16

Eleonora Evi, Piernicola Pedicini, Daniela Rondinelli

Draft motion for a resolution

Recital B

Draft motion for a resolution

B. whereas on 6 March 2015, the EU and its Member States submitted its INDC to the UNFCCC, which commits to a binding target of at least a 40% domestic reduction in GHG emissions by 2030 compared to 1990 levels;

Amendment

B. whereas on 6 March 2015, the EU and its Member States submitted its INDC to the UNFCCC, which commits to a binding target of at least a 40% domestic reduction in GHG emissions by 2030 compared to 1990 levels; ***whereas, however, this objective is insufficient to maintain global warming within the limits required by the Paris Agreements and it is therefore necessary to establish an emissions reduction target of 65% by 2030;***

Or. it

Amendment 17

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C

Draft motion for a resolution

C. whereas the past four years – 2015 to 2018 – were the top four warmest years in the global temperature record and whereas 2018 saw a record high in global carbon emissions;

Amendment

C. whereas the past four years – 2015 to 2018 – were the top four warmest years in the global temperature record and whereas 2018 saw a record high in global carbon emissions; ***whereas July 2019 was the hottest month on record and the year 2019 continues the current trend, putting 2015-2019 on track to be the hottest five years on record, according to the WMO:***

Or. en

Amendment 18

Jadwiga Wiśniewska, Alexandr Vondra, Anna Zalewska

Draft motion for a resolution

Recital C

Draft motion for a resolution

C. whereas the past four years – 2015 to 2018 – were the top four warmest years in the global temperature **record** and whereas 2018 saw a record high in global carbon emissions;

Amendment

C. whereas the past four years – 2015 to 2018 – were the top four warmest years in the global temperature **since they are recorded** and whereas 2018 saw a record high in global carbon emissions;

Or. en

Amendment 19

Eleonora Evi, Piernicola Pedicini, Daniela Rondinelli

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. Whereas, according to the International Monetary Fund (IMF), global fossil fuel subsidies remained large at \$4.7 trillion in 2015 and are projected at \$5.2 trillion in 2017, which equals to 6.5 % of GDP; whereas, in January 2019 the European Commission estimated that fossil fuel subsidies provided by EU governments between 2008 and 2016 were about €54-55 billion per year.

Or. en

Amendment 20

Alessandra Moretti

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas the 1995 Beijing Platform for Action (BPfA) clearly defined the link between the environment, sustainable development and gender and asserted that women have an strategic role to play in the development of sustainable and ecologically sound consumption and production patterns, including the need for women to participate on an equal basis in making decisions about the environment at all levels;

Or. it

Amendment 21

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas the commitments made so far by the signatories to the Paris Agreement will not be sufficient to achieve the common goal; whereas the current NDC submitted by the EU and its Member States is also not in line with the goals set out in the Paris Agreement and needs to be revised;

Or. en

Amendment 22

Christophe Hansen

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas it repeatedly asked the

European Commission, e.g. in its resolution on the net zero strategy in March, to examine CO2 pricing in sectors that are not yet covered by the EU ETS;

Or. en

Amendment 23

Peter Liese, Pernille Weiss, Agnès Evren, Alexander Bernhuber, Norbert Lins, Edina Tóth, Christophe Hansen

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas around 10% of the EU's GHG emissions are absorbed by growing forests;

Or. en

Amendment 24

Mohammed Chahim, César Luena, Alessandra Moretti, Tudor Ciuhodaru, Rory Palmer, Nicolás González Casares, Seb Dance, Monika Beňová, Jytte Guteland

Draft motion for a resolution

Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas climate change disproportionately affects developing countries, despite developing countries emitting far less CO2 than developed countries;

Or. en

Amendment 25

Frédérique Ries, Nils Torvalds, Catherine Chabaud, Véronique Trillet-Lenoir, Fredrick Federley

Draft motion for a resolution
Recital C a (new)

Draft motion for a resolution

Amendment

Ca. whereas Chile, as the host country of COP25, has already indicated that it will highlight the role of the oceans in combating global warming, and that this decision makes even more sense after the publication of a new alarming report by the IPCC on ocean warming;

Or. en

Amendment 26
Frédérique Ries, Nils Torvalds, Catherine Chabaud, Véronique Trillet-Lenoir, Fredrick Federley

Draft motion for a resolution
Recital C b (new)

Draft motion for a resolution

Amendment

Cb. Whereas the experts of the IPCC “High level panel for a sustainable ocean economy” have presented proposals to make the oceans a source of solutions to climate change such as the restoration of marine forests and coastal ecosystems damaged by human activities;

Or. en

Amendment 27
Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution
Recital C b (new)

Draft motion for a resolution

Amendment

Cb. whereas elements of EU legislation contributing to the fulfilment

of the EU NDC, in particular the Renewable Energy Directive and the Energy Efficiency Directive, were concluded with an increased but still insufficient level of ambition, bringing the EU to a GHG emissions reduction target of at least 45% by 2030; whereas a 45% reduction in the EU by 2030 does not yet make a sufficient contribution to attaining the goals of the Paris Agreement and the mid-century goal of net-zero emissions;

Or. en

Amendment 28
Peter Liese, Agnès Evren, Norbert Lins

Draft motion for a resolution
Recital C b (new)

Draft motion for a resolution

Amendment

Cb. whereas it asked the Commission already several times, for example in its resolution on the net zero strategy in March 2019, to examine CO₂ pricing in sectors that are not yet covered by the EU ETS;

Or. en

Amendment 29
Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution
Recital C c (new)

Draft motion for a resolution

Amendment

Cc. whereas, according to the WMO, global CO₂ concentration was 407.8 parts per million(ppm) in 2018, 2.2 ppm higher than 2017, and CO₂ concentrations are on track to reach or even exceed 410 ppm

by the end of 2019;

Or. en

Amendment 30

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C d (new)

Draft motion for a resolution

Amendment

Cd. whereas climate strikes have taken place in 185 countries across the world as part of a global movement, with a record of 7.6 million people taking to the streets in September 2019, constituting the largest climate mobilisation in history:

Or. en

Amendment 31

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C e (new)

Draft motion for a resolution

Amendment

Ce. whereas the IPCC's 1.5° C report demonstrates that the impacts of temperature increase are likely to be significantly less severe at a 1.5° C increase than at a 2° C increase;

Or. en

Amendment 32

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C f (new)

Draft motion for a resolution

Amendment

Cf. whereas the failure of major emitters to reduce their GHG emissions in line with the action required to limit the global average temperature rise to 1.5° C exacerbates the already enormous scale and costs of the necessary adaptation to climate change, with particularly serious consequences for least developed countries (LDCs) and small island developing states (SIDS); whereas all initiatives by LDCs and SIDS to produce risk information and early warnings should be supported;

Or. en

Amendment 33

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C g (new)

Draft motion for a resolution

Amendment

Cg. whereas it is untenable to let adaptation costs lie where they fall and those bearing the main responsibility for GHG emissions must shoulder most of the global burden;

Or. en

Amendment 34

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Recital C h (new)

Draft motion for a resolution

Amendment

Ch. whereas forests contribute substantially to climate change mitigation

and adaptation; whereas deforestation accounts for nearly 20% of global GHG emissions and is driven in particular by expanding industrial production of livestock, soy and palm oil, including for the EU market; whereas the EU should reduce its indirect contributions to deforestation ('embodied deforestations'), for which it bears a responsibility;

Or. en

Amendment 35

Mick Wallace, Giorgos Georgiou, Clare Daly

Draft motion for a resolution

Paragraph 1

Draft motion for a resolution

1. Recalls that climate change *is one of* the most important *challenges* facing humanity and that all states and players worldwide need to do *their utmost* to fight it; underlines that timely international cooperation, solidarity as well as consistent and persistent commitment to joint action is the only solution to fulfil our collective responsibility of preserving the entire planet;

Amendment

1. Recalls that climate change, *as a cause and multiplier of other risks, is* the most important *challenge* facing humanity; *stresses that climate change is an emergency that requires an emergency response, that a mass extinction is taking place* and that all states and players worldwide need to do *everything possible* to fight it; underlines that timely international cooperation, solidarity as well as consistent and persistent commitment to joint action is the only solution to fulfil our collective responsibility of preserving the entire planet *and stopping a climate breakdown*;

Or. en

Amendment 36

Mick Wallace, Clare Daly, Giorgos Georgiou

Jadwiga Wiśniewska, Alexandr Vondra, Anna Zalewska

Draft motion for a resolution

Paragraph 1

Draft motion for a resolution

1. Recalls that climate change is one of the most important challenges facing humanity and that all states and players worldwide need to do their utmost to **fight** it; underlines that timely international cooperation, solidarity as well as consistent and persistent commitment to joint action is the only solution to fulfil our collective responsibility of preserving the entire planet;

Amendment

1. Recalls that climate change is one of the most important challenges facing humanity and that all states and players worldwide need to do their utmost to **mitigate it and adapt to** it; underlines that timely international cooperation, solidarity as well as consistent and persistent commitment to joint action is the only solution to fulfil our collective responsibility of preserving the entire planet;

Or. en

Amendment 38

Peter Liese, Stanislav Polčák, Pernille Weiss, Maria Spyraiki, Radan Kanev, Christophe Hansen

Draft motion for a resolution

Paragraph 2

Draft motion for a resolution

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in ***order not to overshoot the 1.5°C limit***; believes that national, regional and local governments, as well as the EU, should heed these calls;

Amendment

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in ***line with the Paris Agreement and the request of scientific bodies like the IPCC***; believes that national, regional and local governments, as well as the EU, should heed these calls;

Or. en

Amendment 39

Jadwiga Wiśniewska, Alexandr Vondra, Anna Zalewska

Draft motion for a resolution

Paragraph 2

Draft motion for a resolution

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in order ***not to overshoot the 1.5°C limit***; believes that national, regional and local governments, as well as the EU, should heed these calls;

Amendment

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in order ***to meet the goals of the Paris Agreement***; believes that national, regional and local governments, as well as the EU, should heed these calls;

Or. en

Amendment 40

Pär Holmgren

Draft motion for a resolution
Paragraph 2

Draft motion for a resolution

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in order not to overshoot the 1.5°C limit; believes that national, regional and local governments, as well as the EU, should heed these calls;

Amendment

2. Acknowledges that the serious risks of climate change are at the heart of citizens' concerns; **highlights that, according to the 2019 Special Eurobarometer on Climate Change, 93% of European citizens see climate change as a serious problem, while 92% of respondents supports the objective of reaching climate-neutrality by 2050, and respectively 92% and 89% of them would support an increase of the renewable energy and energy efficiency targets in that regard**; welcomes the fact that people across the world, in particular younger generations, are increasingly active in fighting for climate action; welcomes their calls for greater collective ambition and swift action in order not to overshoot the 1.5°C limit; believes that national, regional and local governments, as well as the EU, should heed these calls;

Amendment 45
Esther de Lange

Draft motion for a resolution
Paragraph 2 a (new)

Draft motion for a resolution

Amendment

2a. Acknowledges that public support is indispensable for the success of ambitious and inclusive EU climate policy and measures and that this should be reflected in the Union's efforts to tackle climate change;

Amendment 46

Véronique Trillet-Lenoir, Nils Torvalds, Frédérique Ries, Andreas Glück, Irena Joveva, Ondřej Knotek, Catherine Chabaud

Draft motion for a resolution

Paragraph 2 a (new)

Draft motion for a resolution

Amendment

2a. Recalls that the Paris Agreement acknowledges the « right to health » as a key human right in its preamble; underlines that Article 4.1 of the United Nations Framework Convention on Climate Change (UNFCCC) states that “all Member States should employ appropriate methods, for example impact assessments, formulated and determined nationally, with a view to minimising adverse effects on the economy, on public health and on the quality of environment, of projects or measures undertaken by them to mitigate or adapt to climate change”; considers that health should be included in national adaptation plans and national communications to the UNFCCC;

Or. en

Amendment 47

Mick Wallace, Clare Daly, Giorgos Georgiou

Draft motion for a resolution

Paragraph 2 a (new)

Draft motion for a resolution

Amendment

2a. Acknowledges the need to prioritise measures to address social vulnerability and equity which will underpin efforts to promote just climate

resilience;

Or. en

Amendment 48

Véronique Trillet-Lenoir, Nils Torvalds, Frédérique Ries, Andreas Glück, Irena Joveva, Catherine Chabaud

Draft motion for a resolution

Paragraph 2 b (new)

Draft motion for a resolution

Amendment

2b. Stresses that climate change undermines the social and environmental determinants of health, including people's access to clean air, safe drinking water, sufficient food and secure shelter. Stresses that through flood, heatwaves, drought and fires, climate change is responsible for significant impact on human health including under nutrition, impact on mental health, cardiovascular and respiratory diseases, and vector born infections;

Or. en

Amendment 49

Esther de Lange, Annie Schreijer-Pierik

Draft motion for a resolution

Paragraph 2 b (new)

Draft motion for a resolution

Amendment

2b. Acknowledges the positive and significant role the agricultural sector can play in fighting climate change and underlines the importance of the Common Agricultural Policy in supporting farmers to develop climate smart agricultural practices such as carbon sequestration and the re-use of carbon emissions;

Amendment 50**Mick Wallace, Clare Daly, Giorgos Georgiou****Draft motion for a resolution****Paragraph 3***Draft motion for a resolution*

3. Highlights that ***all citizens already face*** direct impacts of climate change; underlines that, according to the ***European*** Environment Agency, average annual losses caused by weather and climate-related extremes in the Union alone amounted to around EUR 12.8 billion between 2010 and 2016, and that, if no further action is taken, climate damages in the EU could amount to at least EUR 190 billion by 2080, equivalent to a net welfare loss of 1.8 % of its current GDP;

Amendment

3. Highlights that ***the*** direct impacts of climate change ***are already being felt; highlights that, according to the 2019 report by the Global Commission on Adaptation, climate change could push more than 100 million people into poverty by 2030 and crop yields could decrease by 5-30 % by 2050 leaving especially vulnerable areas, food insecure;*** underlines that, according to the Environment Agency, average annual losses caused by weather and climate-related extremes in the Union alone amounted to around EUR 12.8 billion between 2010 and 2016, and that, if no further action is taken, climate damages in the EU could amount to at least EUR 190 billion by 2080, equivalent to a net welfare loss of 1.8 % of its current GDP;

Amendment 51**Catherine Griset, Aurelia Beigneux****Draft motion for a resolution****Paragraph 3***Draft motion for a resolution*

3. ***Highlights that all citizens already face direct impacts of climate change;*** underlines that, according to the European Environment Agency, average annual losses caused by weather and climate-

Amendment

Mohammed Chahim, Eric Andrieu, Maria Arena, César Luena, Alessandra Moretti, Nikos Androulakis, Rory Palmer, Nicolás González Casares, Cristina Maestre Martín De Almagro, Sylwia Spurek, Seb Dance, Monika Beňová, Tiemo Wölken, Jytte Guteland

Draft motion for a resolution
Paragraph 10

Draft motion for a resolution

10. Calls on the country holding the EU Presidency and the Commission to submit to the UNFCCC as soon as possible the Union's long-term strategy to reach domestic net-zero emissions **in** 2050; stresses that in order to reach domestic net-zero GHG emissions in 2050 in the most cost-efficient manner, and in order to avoid relying on carbon removal technologies that would entail significant risks for ecosystems, biodiversity and food security, the 2030 ambition level will need to be raised; ***believes it to be of the utmost importance for the Union to send a clear message during the UN Climate Summit in September 2019 that it stands ready to enhance its contribution to the Paris Agreement;***

Amendment

10. Calls on the country holding the EU Presidency and the Commission to submit to the UNFCCC as soon as possible the Union's long-term strategy to reach domestic net-zero emissions ***as early as possible and the latest by 2050;*** stresses that in order to reach domestic net-zero GHG emissions in 2050 in the most cost-efficient manner, and in order to avoid relying on carbon removal technologies that would entail significant risks for ecosystems, biodiversity and food security, the 2030 ambition level will need to be raised; ***regrets that the UN Climate Summit was a missed opportunity for the EU to set higher ambitions and show leadership for the achievement of the Paris Agreement.;***

Amendment 181

Jadwiga Wiśniewska, Alexandr Vondra, Anna Zalewska

Draft motion for a resolution

Paragraph 23 a (new)

Draft motion for a resolution

Amendment

23a. Notices that financial needs of Member States and sectors particularly affected by costs of energy transition, in particular the coal mining regions and energy intensive sectors, will be tremendous; therefore, stresses that the future EU budgets must allocate sufficient funds to meet the needs of these regions and sectors to make sure nobody is left behind;

Or. en

Amendment 182

Mohammed Chahim, César Luena, Delara Burkhardt, Alessandra Moretti, Nikos Androulakis, Rory Palmer, Nicolás González Casares, Sylwia Spurek, Seb Dance, Monika Beňová

Draft motion for a resolution

Paragraph 23 a (new)

Draft motion for a resolution

Amendment

23a. Reminds the parties of the need to allocate sufficient resources to move from commitments to actions and to implement the necessary measures to achieve the Paris Agreement objectives; supports the new momentum for introducing a carbon adjustment mechanism at the European borders for imports to the EU in order to create a level playing field of international trade and avoid carbon leakage; calls, therefore, on the European Commission and the Member States to introduce a fair and progressive carbon taxation as soon as possible;

Or. en

Amendment 183

Nils Torvalds, Sophia in 't Veld, Véronique Trillet-Lenoir, Catherine Chabaud, Pascal Canfin, Fredrick Federley, Chris Davies, Irena Joveva, Morten Petersen, María Soraya Rodríguez Ramos, Karin Karlsbro, Susana Solís Pérez

Draft motion for a resolution

Paragraph 23 a (new)

Draft motion for a resolution

Amendment

23a. Underlines the role of sustainable finance and considers that a rapid adoption and development of green finance by the key international financial institutions is essential for a successful decarbonisation of the global economy; underlines the need to implement the

EU's Action Plan on Sustainable Finance, and supports the setting up of an international platform on sustainable finance;

Or. en

Amendment 184

Peter Liese, Stanislav Polčák, Pernille Weiss, Agnès Evren, Edina Tóth, Radan Kanev, Christophe Hansen

Draft motion for a resolution

Paragraph 23 a (new)

Draft motion for a resolution

Amendment

23a. Stresses the importance to get discussions started with those countries worldwide, which are at the moment dependent on the export of fossil fuels, on how a strategy of joint energy and climate security can be implemented in a way that gives a future perspective to those regions;

Or. en

Amendment 185

Pär Holmgren

Draft motion for a resolution

Paragraph 23 a (new)

Draft motion for a resolution

Amendment

23a. Welcomes the announcement by Commission President-elect Ursula von der Leyen to introduce a carbon border tax; believes that in order to be WTO-compliant, such mechanism should fully replace current carbon leakage provisions under the EU ETS, and apply to imports and exports alike;

Amendment 186

Nils Torvalds, Sophia in 't Veld, Véronique Trillet-Lenoir, Catherine Chabaud, Pascal Canfin, Fredrick Federley, Chris Davies, Irena Joveva, Morten Petersen, María Soraya Rodríguez Ramos, Karin Karlsbro, Susana Solís Pérez

Draft motion for a resolution

Paragraph 23 b (new)

Draft motion for a resolution

Amendment

23b. Supports the work of the coalition of Finance Ministers for Climate Action and encourages all governments to adopt the coalition's commitments to align all policies and practices in the remit of finance ministries with the goals of the Paris Agreement and to adopt effective carbon pricing, as laid down in the 'Helsinki principles';

Amendment 187

Mohammed Chahim, César Luena, Delara Burkhardt, Alessandra Moretti, Nikos Androulakis, Tudor Ciuhodaru, Rory Palmer, Nicolás González Casares, Sylwia Spurek, Seb Dance, Monika Beňová, Jytte Guteland

Draft motion for a resolution

Paragraph 23 b (new)

Draft motion for a resolution

Amendment

23b. Underlines that in the course of the sustainable energy transition, the problem of energy poverty needs to be tackled by strengthened energy consumers' rights and information, enhanced energy efficiency measures in buildings, especially for low-income households, and through social policies;

Amendment 188

Mohammed Chahim, Delara Burkhardt, César Luena, Alessandra Moretti, Nikos Androulakis, Tudor Ciuhodaru, Rory Palmer, Nicolás González Casares, Sylwia Spurek, Seb Dance, Monika Beňová, Jytte Guteland

Draft motion for a resolution

Paragraph 23 c (new)

Draft motion for a resolution

Amendment

23c. Believes that democratisation of the energy system is crucial for the sustainable energy transition to be successful; calls, therefore, on improving citizens' rights and abilities to participate in the production of safe and clean energy;

Or. en

Amendment 189

Catherine Griset, Aurelia Beigneux

Draft motion for a resolution

Paragraph 24

Draft motion for a resolution

Amendment

24. Expresses its satisfaction with the growing global mobilisation of an ever-broader range of non-state actors committed to climate action with concrete and measurable deliverables; highlights the critical role of civil society, the private sector and sub-state governments in pressurising and driving public opinion and state action; calls on the EU, the Member States and all Parties to stimulate, facilitate and engage with non-state actors, who increasingly become frontrunners in the fight against climate change;

Amendment

32f. Welcomes the commitment and concrete activities to reduce greenhouse gas emissions in many parts of the world, for example the very ambitious commitments of many developing countries and small island states; regrets, however, the lack of ambition and the lack of debate on increasing the NDC in many major economies; recalls that the greenhouse gas emissions of the EU are 9

% of the global emissions compared to 6.7 % share of the citizens, which means that increased ambition in Europe is of crucial importance especially because of the historical responsibility and the necessity to give a good example to the rest of the world, while it will be impossible to achieve the Paris Agreement goal and avoid tipping points if increased ambition in other major economies will not follow;
