AMENDMENTS
675 - 696

Draft opinion
Alexandr Vondra
(PE650.633v01-00)

Establishing the Just Transition Fund

Proposal for a regulation
(COM(2020)022 – C9-0007/2020 – 2020/0006(COD))
Amendment 675
Kateřina Konečná

Proposal for a regulation
Annex I – paragraph 1 – point b

Text proposed by the Commission

(b) the allocations resulting from the application of point (a) are adjusted to ensure that no Member State receives an amount exceeding EUR 2 billion. The amounts exceeding EUR 2 billion per Member State are redistributed proportionally to the allocations of all other Member States. The Member States shares are recalculated accordingly;

Amendment

(b) the allocations resulting from the application of point (a) are adjusted to ensure that no Member State receives an amount exceeding 20% of the principal amount. The amounts exceeding the 20% per Member State are redistributed proportionally to the allocations of all other Member States. The Member States shares are recalculated accordingly.

Amendment 676
Sándor Rónai

Proposal for a regulation
Annex II – paragraph 1 – point 1.1

Text proposed by the Commission

1.1. Outline of the expected transition process towards a climate-neutral economy, in line with the objectives of the National Energy and Climate Plans and other existing transition plans with a timeline for ceasing or scaling down activities such as coal and lignite mining or coal fired electricity production

Amendment

1.1. Outline of the expected transition process towards a climate-neutral economy, in line with the objectives of the National Energy and Climate Plans and other existing transition plans with a timeline for ceasing all high GHG emission activities such as activities related to fossil-fuel based electricity production

Or. en

Amendment 677
Pär Holmgren
Proposal for a regulation
Annex II – paragraph 1 – point 1.1

Text proposed by the Commission

1.1. Outline of the expected transition process towards a climate-neutral economy in line with the objectives of the National Energy and Climate Plans and other existing transition plans with a timeline for ceasing or scaling down activities, such as coal and lignite mining or coal fired electricity production

Amendment

1.1. Outline of the expected transition process towards a climate-neutral, environmentally sustainable, fully renewables-based, highly resource- and energy-efficient and circular economy by 2040 at the latest, in line with the Union and Member States commitment to limit the global temperature increase to 1.5°C below pre-industrial levels, the objectives of the National Energy and Climate Plans and other existing transition plans with a legally-binding timeline for ceasing activities that are inconsistent with the Union and Member States commitments under the Paris Agreement, such as all activities related to coal and lignite mining or electricity production from fossil fuels

Or. en

Amendment 678
Pår Holmgren

Proposal for a regulation
Annex II – paragraph 1 – point 1.2

Text proposed by the Commission

1.2. Identifying the territories expected to be the most negatively affected and justifying this choice with the corresponding estimation of the economic and employment impacts based the outline of Section 1.1

Amendment

1.2. Identifying the people and territories expected to be the most negatively affected and justifying this choice with the corresponding estimation of the economic and employment impacts based the outline of Section 1.1

Amendment 679
Danilo Oscar Lancini
Proposal for a regulation
Annex II – paragraph 2 – point 2.4 – Reference: Article 7(2)(d)

Text proposed by the Commission

- Development needs to address the transition challenges;
- Objectives and results expected through implementing the JTF priority.

Amendment

- Development needs to address the damage caused by the transition;
- Objectives and results expected through implementing the JTF priority.

Or. it

Amendment 680
Danilo Oscar Lancini

Proposal for a regulation
Annex II – paragraph 2 – point 2.4 – Reference: Article 7(2)(g)

Text proposed by the Commission

- types of operations envisaged and their expected contribution to alleviate the impact of the climate transition

Amendment

- types of operations envisaged and their expected contribution to alleviate the damage caused by the transition to a climatically neutral economy

Or. it

Amendment 681
Danilo Oscar Lancini

Proposal for a regulation
Annex II – paragraph 2 – point 2.4 – Reference: Article 7(2)(h)

Text proposed by the Commission

To fill in only if support is provided to productive investments other than SMEs:

- an exhaustive list of such operations and enterprises and for each of them a justification of the necessity of such support through a gap analysis

Amendment

To fill in only if support is provided to productive investments other than micro enterprises and SMEs:

- an indicative list of such operations with a justification of the necessity of such support through a gap analysis
support through a gap analysis demonstrating that the expected job losses would exceed the expected number of jobs created in the absence of this investment.
listed in Annex I to Directive 2003/87/EC:

- an exhaustive list of operations to be supported and a justification that they contribute to the transition to a climate-neutral economy and lead to substantial reductions in greenhouse gas emissions going below the relevant benchmarks used for free allocation under Directive 2003/87/EC and provided that they are necessary for the protection of a significant number of jobs.

Amendment 684
Pär Holmgren

Proposal for a regulation
Annex II – paragraph 2 – point 2.4 – Reference: Article 7(2)(i)

Text proposed by the Commission

Amendment

To fill in only if support is provided to investments to achieve the reduction of greenhouse gas emissions from activities listed in Annex I to Directive 2003/87/EC:

- an exhaustive list of operations to be supported and a justification that they contribute to the transition to a climate-neutral economy and lead to substantial reductions in greenhouse gas emissions going below the relevant benchmarks used for free allocation under Directive 2003/87/EC and provided that they are necessary for the protection of a significant number of jobs.

Amendment 685
Sándor Rónai

Proposal for a regulation
Annex II – paragraph 2 – point 2.4 – Reference: Article 7(2)(j)
**Text proposed by the Commission**

- synergies and complementarities of the envisaged operations with other programmes under the Invesments for jobs and growth goal (supporting the transition process) *other financing instruments (the Union Emissions Trading Modernisation Fund)* and the other pillars of the Just Transition Mechanism (dedicated scheme under InvestEU and public sector loan facility with the European Investment Bank) to address identified investment needs

**Amendment**

- synergies and complementarities of the envisaged operations with other programmes under the Invesments for jobs and growth goal (supporting the transition process) and the other pillars of the Just Transition Mechanism (dedicated scheme under InvestEU and public sector loan facility with the European Investment Bank) to address identified investment needs

**Amendment 686**

Sándor Rónai

**Proposal for a regulation**

**Annex II – paragraph 3 – point 3.1**

**Text proposed by the Commission**

- Arrangements for involvement of partners in the preparation, implementation, monitoring and evaluation of the territorial just transition plan

- Outcome of public consultation

**Amendment**

- Arrangements for involvement of partners in the preparation, implementation, monitoring and evaluation of the territorial just transition plan *including which civil society organisations will be involved and how community representatives are consulted and engaged in the programming process, before and after programming documents are developed*;

- Outcome of public consultation *and how the outcome of the public consultation has been taken into account in the final version of the plan.*
Proposal for a regulation
Annex II – paragraph 3 – point 3.1 – paragraph 1

**Text proposed by the Commission**

Arrangements for involvement of *partners* in the preparation, implementation, monitoring and evaluation of the territorial just transition plan;

**Amendment**

Arrangements for involvement of *community representatives, civil society organisations, trade unions and any other relevant stakeholder* in the preparation, implementation, monitoring and evaluation of the territorial just transition plan;

RCR01b – Increase of GDP/cap in the
territory

Or. en
Amendment 693
Sándor Rónai

Proposal for a regulation
Annex III – Results – RCR29

Text proposed by the Commission

Amendment

RCR 29 – Estimated greenhouse-gas emissions from activities listed in Annex I to Directive 2003/87/EC in supported enterprises deleted

Or. en

Amendment 694
César Luena, Cristina Maestre Martín De Almagro

Proposal for a regulation
Annex III – subheading 1

Text proposed by the Commission

Amendment

REGIONAL POLICY COMMON OUTPUT INDICATORS (‘RCO’) AND REGIONAL POLICY COMMON RESULT INDICATORS (‘RCR’) FOR THE JUST TRANSITION FUND

2 For presentational reasons, indicators are grouped to provide for easier matching with the indicators included in other cohesion policy fund-specific regulations.

Or. es

Justification

Result indicators depend not only on the interventions, but also on other factors. Therefore, all result indicators should be removed from Annex III.
Amendment 695
César Luena, Cristina Maestre Martín De Almagro

Proposal for a regulation
Annex III – Results

Text proposed by the Commission

RCR 32: Renewable energy: Capacity connected to the grid (operational)

RCR 46: Population served by waste recycling facilities and small waste management systems

RCR 47: Waste recycled

RCR 48: Recycled waste used as raw materials

RCR 49: Waste recovered

RCR 50: Population benefiting from measures for air quality

RCR 52: RCR 52 - Rehabilitated land used for green areas, social housing, economic or community activities for participants²:

RCR 200: participants engaged in job searching upon leaving,

RCR 201: participants in education or training upon leaving,

RCR 202: participants gaining a qualification upon leaving,

RCR 203: participants in employment, including self-employment, upon leaving.

² All personal data are to be broken down by gender. Where certain results are not possible, it is not necessary to collect and report data for those result indicators. When data are collected from registers, Member States do not need to align with commonly agreed definitions and may use national definitions.

Or. es

Justification

Result indicators depend not only on the interventions, but also on other factors. Therefore, all result indicators should be removed from Annex III.

Amendment 696
César Luena, Cristina Maestre Martín De Almagro
Proposal for a regulation  
Annex III – Outputs – RCO39

**Text proposed by the Commission**

RCO 39: Systems for monitoring air pollution installed

3 All output and result indicators related to participants are to be reported.

4 All personal data are to be broken down by gender (male/female – non-binary).  

**Amendment**

RCO 39: Systems for monitoring air pollution installed

3 All result indicators related to participants are to be reported.

4 All personal data are to be broken down by gender (male/female – non-binary). When data are collected from registers, Member States do not need to align with commonly agreed definitions and may use national definitions.

---

**Justification**

Result indicators depend not only on the interventions, but also on other factors. Therefore, all result indicators should be removed from Annex III.
