Amendment

15a. Denounces the significant cut of about 20% of the Justice, Rights and Values Fund and subsequently of the Citizens, Equality, Rights and Values Programme proposed by the Commission in the revised MFF proposal, from an already low initial budget proposed in 2018; deplores that this decision goes against the European Parliament's 2019 position as well as calls from CSOs to increase the budget to €1.83 billion; recalls that Parliament's position is

justified given the addition of a Union Values strand which requires additional budget, and given the disproportionate impact of Covid-19 on women and the increase of gender-based violence during the crisis, this Programme being the only one dedicated to supporting CSOs promoting gender equality and combating gender-based violence in the EU; calls on the Council to increase this budget, in line with the European Parliament's 2019 position, and adding 10 extra million to combat the effects of the Covid-19 crises on gender-based violence during 2021;
