

ORAL QUESTION H-0332/03
for Question Time at the part-session in June 2003
pursuant to Rule 43 of the Rules of Procedure
by Maurizio Turco
to the Council

Subject: The Iranian regime's anthrax programme

The People's Mujahedeen's denunciation of the Iranian regime's secret nuclear weapons programme in August 2002 has been proved completely correct, namely by independent research institutions, and therefore the public denunciation by the same organisation on 15 May of the Iranian regime's programme of anthrax production was naturally viewed with general acceptance by the international media.

What does the Council intend to do about the existence of such programmes?

Tabled: 22.05.2003
