

ORAL QUESTION H-0337/03  
for Question Time at the part-session in June 2003  
pursuant to Rule 43 of the Rules of Procedure  
by James Fitzsimons  
to the Commission

Subject: Nuclear inspection process

Will the Commission provide an account of the safety inspection process in which it has been involved in the last year regarding the nuclear industry and what new safety measures up to and including the closure of nuclear plants such as Sellafield, does it consider need to be undertaken?
