

ORAL QUESTION H-0726/03
for Question Time at the part-session in December 2003
pursuant to Rule 43 of the Rules of Procedure
by John Purvis
to the Commission

Subject: Industrial biotechnology

Would the Commission indicate its assessment of the potential of industrial (i.e. white) biotechnology in terms of the Lisbon objectives and sustainable development and state what priority it feels should be given thereto in terms of research effort and industrial policy?
