

ORAL QUESTION H-0626/06
for Question Time at the part-session in September I 2006
pursuant to Rule 109 of the Rules of Procedure
by Jan Andersson
to the Commission

Subject: Industrial policy

An integrated European industrial policy is to be welcomed. In its current form, however, there is far too much emphasis on increasing competitiveness. Competitiveness is indeed important if industry is to develop but it would have been welcomed if the employment policy aspects had been taken into account to a greater extent.

How will the Commission incorporate employment policy into the integrated industrial policy?
