

ORAL QUESTION H-0894/08  
for Question Time at the part-session in December 2008  
pursuant to Rule 109 of the Rules of Procedure  
by Liam Aylward  
to the Commission

Subject: Energy efficiency

Regarding the Climate Change Package, many believe energy efficiency is one of the most useful and realistic means of reducing emissions - for private housing, public authorities, companies etc.

Does the Commission foresee this non-binding energy efficiency target becoming a binding one?
