

2021/0426(COD)

6.7.2022

AMENDMENTS

884 - 1213

Draft report
Ciarán Cuffe
(PE732.742v01-00)

Energy performance of buildings (recast)

Proposal for a directive
(COM(2021)0802 – C9-0469/2021 – 2021/0426(COD))

Amendment 884

András Gyürk

Proposal for a directive

Article 9 – paragraph 1 – point c

Directive 2010/31/EU

Article 9 – paragraph 1 – point c

Text proposed by the Commission

Amendment

(c) *residential buildings and building units achieve at the latest* **deleted**

(i) after 1 January 2030, at least energy performance class F; and

(ii) after 1 January 2033, at least energy performance class E;

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 885

Tsvetelina Penkova, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Marek Pawel Balt, Csaba Molnár

Proposal for a directive

Article 9 – paragraph 1 – point c – introductory part

Text proposed by the Commission

Amendment

(c) residential buildings and building units achieve at the latest

(c) **Worst performing** residential buildings and building units achieve at the latest

Or. en

Amendment 886

Marisa Matias

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January **2030**, **at least** energy performance class **F**; **and**

Amendment

(i) after 1 January **2027**, **all multi-unit buildings have undertaken an Energy Performance Certificate and have their building** energy performance class **updated in the appropriate national databases for energy performance of buildings, in compliance with Article 19**;

Or. en

Amendment 887

Andreas Glück, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Nicola Danti, Valter Flego

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January **2030**, at least energy performance class **F**; and

Amendment

(i) after 1 January **2033**, at least energy performance class **F**; and

Or. en

Amendment 888

Francesca Donato

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January **2030**, at least energy performance class **F**; and

Amendment

(i) after 1 January **2035**, at least energy performance class **F**; and

Or. en

Amendment 889

Tsvetelina Penkova, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Marek Pawel Balt, Csaba Molnár

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January 2030, at least energy performance class **F**; and

Amendment

(i) after 1 January 2030, at least energy performance class **E**; and

Or. en

Amendment 890

Morten Petersen, Christophe Grudler, Claudia Gamon, Martin Hojsík

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January 2030, at least energy performance class **F**; and

Amendment

(i) after 1 January 2030, at least energy performance class **D**; and

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 891

Pernille Weiss

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

(i) after 1 January **2030**, at least energy performance class F; and

Amendment

(i) after 1 January **2032**, at least energy performance class F; and

Or. en

Justification

Owners of residential buildings and buildings units should have at least 10 years from the entry into force of this directive to plan larger investments such as upgrade of the building envelope.

Amendment 892

Isabella Tovaglieri, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 1 – point c – point i

Text proposed by the Commission

Amendment

(i) after 1 January **2030**, at least energy performance class F; and

(i) after 1 January **2035**, at least energy performance class F; and

Or. it

Justification

The deadline given in the original directive is unrealistic in view of the current market and 'environmental' conditions and, therefore, needs to be extended by at least five years.

Amendment 893

Tsvetelina Penkova, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Marek Paweł Balt, Csaba Molnár

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January 2033, at least energy performance class **E**;

(ii) after 1 January 2033, at least energy performance class **D**;

Or. en

Amendment 894

Isabella Tovaglieri, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January **2033**, at least energy performance class E;

(ii) after 1 January **2038**, at least energy performance class E;

Or. it

Justification

The deadline given in the original directive is unrealistic in view of the current market and 'environmental' conditions and, therefore, needs to be extended by at least five years.

Amendment 895
Francesca Donato

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January **2033**, at least energy performance class E;

(ii) after 1 January **2038**, at least energy performance class E;

Or. en

Amendment 896
Andreas Glück, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Nicola Danti, Valter Flego

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January **2033**, at least energy performance class E;

(ii) after 1 January **2036**, at least energy performance class E;

Or. en

Amendment 897
Marisa Matias

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January **2033**, at least energy performance class **E**;

(ii) after 1 January **2030**, at least energy performance class **D**;

Or. en

Amendment 898

Pernille Weiss

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January **2033**, at least energy performance class **E**;

(ii) after 1 January **2035**, at least energy performance class **E**;

Or. en

Justification

Owners of residential buildings and buildings units should have at least 10 years from the entry into force of this directive to plan larger investments such as upgrade of the building envelope.

Amendment 899

Morten Petersen, Christophe Grudler, Claudia Gamon, Martin Hojsík

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii

Text proposed by the Commission

Amendment

(ii) after 1 January 2033, at least energy performance class **E**;

(ii) after 1 January 2033, at least energy performance class **C**;

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 900
Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii a (new)

Text proposed by the Commission

Amendment

(ii a) Member States may require an extension of the deadline set in this paragraph, if justified and requested to the Commission and in accordance with the national building renovation plan referred to in Article 3(1)(a), with regards to specific parts of their building stock.

Or. en

Amendment 901
Aldo Patriciello

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii a (new)

Text proposed by the Commission

Amendment

(ii a) after 1 January 2032, at least energy performance class D

Or. en

Amendment 902
Marisa Matias

Proposal for a directive
Article 9 – paragraph 1 – point c – point ii a (new)

Text proposed by the Commission

Amendment

(ii a) after 1 January 2033, at least energy performance class C;

Or. en

Amendment 903

Seán Kelly, Tom Berendsen, Pascal Arimont, Massimiliano Salini, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Christian Ehler

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii a (new)

Text proposed by the Commission

Amendment

(ii a) after 1 January 2038, at least energy performance class D;

Or. en

Justification

Due to the significant challenges the construction sector currently faces, such as a shortage of skills and workforce due, in particular, to an ageing workforce, rising material prices, high inflation rates across the EU and rising costs of living that affect the financial situation of homeowners etc, the timeline for the introduction of minimum energy performance standards should ensure capacity to comply. Considering these challenges will last into the medium term at least and the uncertainty they create for construction companies, Member States should be afforded flexibility to set national measures to decarbonise the building in line with national renovation plans that must align with delayed introduction of EU level minimum standards. A longer timeline should be provided to increase investor security.

Amendment 904

Marisa Matias

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii b (new)

Text proposed by the Commission

Amendment

(ii b) after 1 January 2040, at least energy performance class B;

Or. en

Amendment 905

Seán Kelly, Tom Berendsen, Pascal Arimont, Massimiliano Salini, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Christian Ehler

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii b (new)

Text proposed by the Commission

Amendment

(ii b) after 1 January 2048, at least energy performance class B;

Or. en

Justification

Due to the significant challenges the construction sector currently faces, such as a shortage of skills and workforce due, in particular, to an ageing workforce, rising material prices, high inflation rates across the EU and rising costs of living that affect the financial situation of homeowners etc, the timeline for the introduction of minimum energy performance standards should ensure capacity to comply. Considering these challenges will last into the medium term at least and the uncertainty they create for construction companies, Member States should be afforded flexibility to set national measures to decarbonise the building in line with national renovation plans that must align with delayed introduction of EU level minimum standards. A longer timeline should be provided to increase investor security.

Amendment 906

Aldo Patriciello

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii b (new)

Text proposed by the Commission

Amendment

(ii b) after 1 January 2035, at least energy performance class C

Or. en

Amendment 907

Marisa Matias

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii c (new)

Text proposed by the Commission

Amendment

(ii c) after 1 January 2050, at least energy performance class A;

Or. en

Amendment 908

Seán Kelly, Tom Berendsen, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Christian Ehler

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii c (new)

Text proposed by the Commission

Amendment

(ii c) after 1 January 2050, at least energy performance class A;

Or. en

Justification

Due to the significant challenges the construction sector currently faces, such as a shortage of skills and workforce due, in particular, to an ageing workforce, rising material prices, high inflation rates across the EU and rising costs of living that affect the financial situation of homeowners etc, the timeline for the introduction of minimum energy performance standards should ensure capacity to comply. Considering these challenges will last into the medium term at least and the uncertainty they create for construction companies, Member States should be afforded flexibility to set national measures to decarbonise the building in line with national renovation plans that must align with delayed introduction of EU level minimum standards. A longer timeline should be provided to increase investor security.

Amendment 909

Aldo Patriciello

Proposal for a directive

Article 9 – paragraph 1 – point c – point ii c (new)

Text proposed by the Commission

Amendment

(ii c) after 1 January 2038, at least energy performance class B

Or. en

Amendment 910

Seán Kelly, Tom Berendsen, Sara Skytvedal, Angelika Niebler, Pernille Weiss, Pascal Arimont, Henna Virkkunen, Franc Bogovič, Massimiliano Salini, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Christian Ehler, Marion Walsmann

Proposal for a directive

Article 9 – paragraph 1 – point c a (new)

Text proposed by the Commission

Amendment

(c a) Member States may require an extension of the deadline set in this paragraph, if justified and requested to the European Commission and in accordance with the national building renovation plan referred to in Article 3(1)(a), with regards to specific parts of their building stock.

Or. en

Amendment 911

Patrizia Toia, Miapetra Kumpula-Natri, Josianne Cutajar

Proposal for a directive

Article 9 – paragraph 1 – subparagraph -1 (new)

Text proposed by the Commission

Amendment

-1 Member States may extend the time limits referred to in this paragraph, if duly justified, and shall inform the Commission of the reasons for the extension.

Or. en

Amendment 912

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1

Text proposed by the Commission

Amendment

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific timelines for the buildings referred to in this paragraph to achieve higher energy performance classes by 2040 and 2050, in line with the pathway for transforming the national building stock into zero-emission buildings.

To achieve higher energy performance classes by **2030**, 2040 and 2050, in line with the pathway for transforming the national building stock into zero-emission buildings **Member States shall, in their roadmap referred to in Article 3(1)(b), establish specific timelines for:**

- (a) building and building units owned by public bodies;***
- (b) non-residential buildings and building units other than those owned by public bodies;and***
- (c) residential buildings and buildings units.***

Or. en

Justification

Such a provision will have a huge impact on EU citizens and businesses. As stated twice by the Regulatory Scrutiny Board, the justification for MEPS is insufficient. There is not enough convincing evidence to justify the proportionality of the measures, notably in view of respecting the right to property.

Amendment 913

Sara Skyttedal, Tomas Tobé

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1

Text proposed by the Commission

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific timelines for the buildings referred to in this paragraph to achieve higher energy performance classes by 2040 and 2050, in line with the pathway for transforming the national building stock into zero-emission buildings.

Amendment

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific timelines for the buildings referred to in this paragraph to achieve higher energy performance classes by 2040 and 2050, in line with the pathway for transforming the national building stock into zero-emission buildings. ***As per the requirements on national roadmaps, Member States should consult relevant stakeholders and local authorities when establishing such standards.***

Or. en

Amendment 914

Francesca Donato

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1

Text proposed by the Commission

Amendment

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific timelines for the buildings referred to in this paragraph to achieve higher energy performance classes by 2040 and 2050, in line with the pathway for transforming the national building stock into zero-emission buildings.

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific timelines for the buildings referred to in this paragraph to achieve higher energy performance classes by 2040 and 2050, ***insofar as it is technically, functionally and economically feasible***, in line with the pathway for transforming the national building stock into ***oriented to*** zero-emission buildings.

Or. en

Amendment 915

András Gyürk

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1

Directive 2010/31/EU

Article 9 – paragraph 1

Text proposed by the Commission

Amendment

In their roadmap referred to in Article 3(1)(b), Member States shall establish specific ***timelines*** for the ***buildings referred to in this paragraph*** to achieve higher energy performance classes by ***2040 and 2050***, in line with the pathway for transforming the national building stock into zero-emission buildings.

in their roadmap referred to in Article 3(1)(b), Member States shall establish specific ***targets*** for the ***national building stock*** to achieve higher energy performance classes by ***2030 and 2040***, in line with the pathway for transforming the national building stock into zero-emission buildings ***by 2050***.

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 916

Angelika Niebler, Markus Pieper, Christian Doleschal, Christian Ehler, Franc Bogovič, Jens Gieseke, Marion Walsmann

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 – point 1 (new)

Text proposed by the Commission

Amendment

(1) Member States may adjust the minimum energy performance standards or set alternative measures with equivalent effect. Member States shall document the equivalence in their roadmap referred to in Article 3(1)(b).

Or. en

Amendment 917

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

Member States may require an extension of the deadline set in this paragraph, if justified and requested to the European Commission and in accordance with the national building renovation plan referred to in Article 3(1)(a), with regards to specific parts of their building stock, notably residential, owner-occupied or multi-apartment buildings.

Or. en

Justification

Given the magnitude of the task, drastic and rigid timelines would risk to remain dead letters. All the tools (reliable new EPC, one-stop shops, funding and financing schemes, sufficient supply of construction materials and building equipment, workforce as well as enforcement mechanisms) need to be in place to ensure a comprehensive application and enforcement of the measures. In that respect, a possible extension of the cut-off dates might be inevitable to prevent the failure of the measures, in particular for specific parts of the building sector or for some Member States.

Amendment 918

Ladislav Ilčić

on behalf of the ECR Group

Elżbieta Kruk, Zdzisław Krasnodębski, Beata Szydło, Grzegorz Tobiszowski

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

Member States may require an extension of the deadlines set under Article 9(1), if duly justified and requested to the European Commission and in accordance with the national building renovation plan referred to in Article 3(1)(a), with regards to specific parts of their building stock.

Or. en

Justification

Several tools need to be in place to ensure a comprehensive application and enforcement of the deadlines, such as a reliable new EPC, one-stop shops, funding and financing schemes, sufficient supply of construction materials and building equipment, etc). In that respect, a possible extension of the cut-off dates might be inevitable to prevent the failure of the measures, in particular for specific parts of the building sector or for some Member States.

Amendment 919

Andreas Glück, Emma Wiesner, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Nils Torvalds, Bart Groothuis

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

Member States may adjust the minimum energy performance standards or set alternative measures with at least the equivalent effect. Member States shall document the equivalence in their roadmap referred to in Article 3(1)(b).

Or. en

Justification

For subsidiarity and proportionality reasons, Member States should be allowed some degree of flexibility, reflecting the state of their national building stock and given the number of factors that Member States only have limited influence on (e.g. sufficient supply of construction materials and building equipment, sufficient qualified workforce).

Amendment 920

Ciarán Cuffe

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 a (new)

Text proposed by the Commission

Amendment

The standards set out in paragraph 1 of this article shall be implemented in accordance to the Member States' National Energy and Climate Plans.

Or. en

Justification

This amendment is inextricably linked other admissible amendments.

Amendment 921

Ladislav Ilčíč

on behalf of the ECR Group

Elżbieta Kruk, Zdzisław Krasnodębski, Beata Szydło, Grzegorz Tobiszowski

Proposal for a directive

Article 9 – paragraph 1 – subparagraph 1 b (new)

Text proposed by the Commission

Amendment

Member States may adjust the minimum energy performance standards provided their overall impact is equivalent to the measures proposed in Article 9(1) in terms of the increase in the annual energy renovation rate, decrease of the primary and final energy consumption of the building stock and its operational greenhouse gas emission reductions. Member States shall document the equivalence of the impact of those

measures in their roadmap, as referred to in Article 3(1)(b).

Or. en

Justification

In line with the subsidiarity and proportionality principle, Member States should be granted some level of flexibility, to be able to adapt the cut-off dates to the MEPS provisions set in paragraph 1 in order to ensure the full and thorough implementation of the provision.

Amendment 922

Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive

Article 9 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1 a. Member States may adjust the minimum energy performance standards or set alternative measures with equivalent effect. Member States shall document the equivalence in their roadmap referred to in Article 3(1)(b).

Or. en

Amendment 923

Markus Pieper

Proposal for a directive

Article 9 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1 a. Member States should have the flexibility to introduce the concept of minimum energy performance standards (MEPS) at the national level, whereas SMEs need EU funding, support and incentives to comply with MEPS.

Or. en

Amendment 924
Jens Geier, Tsvetelina Penkova

Proposal for a directive
Article 9 – paragraph 2 – introductory part

Text proposed by the Commission

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State may establish minimum energy performance standards for the renovation of all other existing buildings.

Amendment

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State may establish minimum energy performance standards for the renovation of all other existing buildings. ***Measures to ensure the minimum energy performance standards should ensure that they do not lead to disproportionate price increases for tenants according to their income, or to the loss of property due to renovation requirements that are financially impossible to pay for private property owners or to unbearable financial burdens for non-profit property owners, public housing owners or housing cooperatives.***

Or. en

Justification

The minimum energy performance standards may involve a risk of displacement of low-income tenants and building owners. Therefore, adequate measures to minimize these risks should be implemented into the EPBD.

Amendment 925
András Gyürk

Proposal for a directive
Article 9 – paragraph 2 – introductory part
Directive 2010/31/EU

Text proposed by the Commission

2. ***In addition to the minimum energy performance standards established pursuant to paragraph 1,*** each Member State may establish minimum energy performance standards for the renovation

Amendment

2. Each Member State may establish minimum energy performance standards for the renovation of existing buildings.

of **all other** existing buildings.

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 926

Beata Szydło, Ladislav Ilčić, Elżbieta Kruk, Zdzisław Krasnodębski, Grzegorz Tobiszowski

Proposal for a directive

Article 9 – paragraph 2 – introductory part

Text proposed by the Commission

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State may establish minimum energy performance standards for the renovation of all other **existing** buildings.

Amendment

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State may establish minimum energy performance standards for the renovation of all other buildings **under construction or undergoing major renovation**.

Or. en

Justification

Retained flexibility, particularly significant in the current economic and energy context

Amendment 927

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 2 – introductory part

Text proposed by the Commission

2. ***In addition to the minimum energy performance standards established***

Amendment

2. Each Member State may establish minimum energy performance standards

pursuant to paragraph 1, each Member State may establish minimum energy performance standards for the renovation of *all other* existing buildings.

for the renovation of existing buildings, *in particular for the worst performing stock*.

Or. en

Amendment 928

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin Hojsík

Proposal for a directive

Article 9 – paragraph 2 – introductory part

Text proposed by the Commission

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State *may* establish minimum energy performance standards for the renovation of all other existing buildings.

Amendment

2. In addition to the minimum energy performance standards established pursuant to paragraph 1, each Member State *shall* establish minimum energy performance standards for the renovation of all other existing buildings.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 929

Francesca Donato

Proposal for a directive

Article 9 – paragraph 2 – subparagraph 1

Text proposed by the Commission

Where established, the minimum energy performance standards shall be designed with a view to the national roadmap and the **2030**, 2040 and 2050 targets contained in the Member State's building renovation plan and to the transformation of the national building stock into zero-emission buildings by 2050.

Amendment

Where established, the minimum energy performance standards shall be designed with a view to the national roadmap and the 2040 and 2050 targets contained in the Member State's building renovation plan and to the transformation of the national building stock into *oriented to* zero-emission buildings by 2050.

Amendment 930**András Gyürk****Proposal for a directive****Article 9 – paragraph 3 – introductory part**

Directive 2010/31/EU

Article 9 – paragraph 3

Text proposed by the Commission

3. In accordance with Article 15, Member States **shall** support **compliance with minimum energy performance standards by all** the following measures:

Amendment

3. In accordance with Article 15, Member States **should** support **investments in energy renovations by** the following measures:

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 931**Isabella Tovagliari, Gianna Gancia, Matteo Adinolfi, Paolo Borchia****Proposal for a directive****Article 9 – paragraph 3 – point a***Text proposed by the Commission*

(a) providing appropriate financial measures, in particular those targeting vulnerable households, people affected by energy poverty or living in social housing, in line with Article 22 of Directive (EU) .../.... [recast EED];

Amendment

(a) providing appropriate financial measures, in particular those targeting vulnerable, **low and medium income** households, people affected by energy poverty or living in social housing, in line with Article 22 of Directive (EU) .../....[recast EED] **and in order to address market barriers**;

Justification

Next to vulnerable households, as a safeguard, low and medium income households should be targeted by incentives and financial measures. As reported in the Energy Efficiency Directive Recast, medium-income households might be at increasing risk of facing energy poverty in the near future, as already today the majority of households affected by energy poverty are (lower) middle-income households.

Amendment 932

Seán Kelly, Tom Berendsen, Sara Skyttedal, Pernille Weiss, Pascal Arimont, Henna Virkkunen, Franc Bogovič, Massimiliano Salini, Maria da Graça Carvalho, François-Xavier Bellamy, Radan Kanev, Salvatore De Meo, Christian Ehler

Proposal for a directive**Article 9 – paragraph 3 – point a***Text proposed by the Commission*

(a) providing appropriate financial measures, in particular those targeting vulnerable households, people affected by energy poverty or living in social housing, in line with Article 22 of Directive (EU) .../.... [recast EED];

Amendment

(a) providing appropriate financial measures, in particular those targeting vulnerable households, **low- and medium-income** people affected by energy poverty or living in social housing, in line with Article 22 of Directive (EU) .../.... [recast EED];

Amendment 933

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López, Nicolás González Casares

Proposal for a directive

Article 9 – paragraph 4

Text proposed by the Commission

4. Where a building is renovated in order to comply with a minimum energy performance standard, Member States shall ensure compliance with **the minimum energy performance requirements for building elements** pursuant to Article 5 **and, in case of major renovation, with the minimum energy performance requirements for existing buildings pursuant to Article 8.**

Amendment

4. Where a building is renovated in order to comply with a minimum energy performance standard, Member States shall ensure compliance with **either deep renovation or staged deep renovation that follows renovation passport** pursuant to Article 10.

Or. en

Amendment 954

András Gyürk

Proposal for a directive

Article 9 – paragraph 4

Directive 2010/31/EU

Article 9 – paragraph 4

Text proposed by the Commission

4. Where a building is renovated in order to comply with a minimum energy performance standard, Member States shall ensure compliance with the minimum energy performance requirements for building elements pursuant to Article 5 and, in case of major renovation, with the minimum energy performance requirements for existing buildings pursuant to Article 8.

Amendment

4. Where a building is renovated in order to comply with a **potential** minimum energy performance standard, Member States shall ensure compliance with the minimum energy performance requirements for building elements pursuant to Article 5 and, in case of major renovation, with the minimum energy performance requirements for existing buildings pursuant to Article 8.

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 955

András Gyürk

Proposal for a directive

Article 9 – paragraph 5 – introductory part

Directive 2010/31/EU

Article 9 – paragraph 5

Text proposed by the Commission

5. Member States may decide not to apply the minimum energy performance standards referred to in paragraphs 1 and 2 to the following categories of buildings:

Amendment

5. Member States may decide not to apply the **potential** minimum energy performance standards referred to in paragraphs 1 and 2 to the following categories of buildings:

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 956**Markus Pieper****Proposal for a directive****Article 9 – paragraph 5 – point a***Text proposed by the Commission*

(a) buildings officially protected as part of a designated environment or because of their special architectural or historical merit, in so far as compliance with the standards would unacceptably alter their character or appearance;

Amendment

(a) buildings officially protected as part of a designated environment or ***because of their special architectural or historical merit and all other buildings that the Member States consider important to exclude*** because of their special architectural or historical merit, in so far as compliance with the standards would unacceptably alter their character or appearance ***or if their renovation is not technically or economically possible***;

Or. en

Amendment 957**Pernille Weiss****Proposal for a directive****Article 9 – paragraph 5 – point a***Text proposed by the Commission*

Amendment

(a) buildings officially protected as part of a designated environment or ***because of their special architectural or historical merit and all other buildings that the Member States consider***

alter their character or appearance;

important to exclude because of their special architectural or historical merit, in so far as compliance with the standards would unacceptably alter their character or appearance;

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 958

Isabella Tovagliari, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 9 – paragraph 5 – point a a (new)

Text proposed by the Commission

Amendment

(a a) buildings for which it would not be technically, functionally and economically feasible;

Or. en

Justification

Some buildings might not be able to meet such specific and thorough requirements; therefore, technical, functional and economic feasibility consideration should remain the cornerstone to set national policy measures and building regulation in this regard.

Amendment 959

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Andreas Glück

Proposal for a directive

Article 9 – paragraph 5 – point c

Text proposed by the Commission

Amendment

(c) temporary buildings with a time of use of two years or less, industrial sites, workshops and non-residential ***agricultural*** buildings with low energy demand and non-residential agricultural buildings

(c) temporary buildings with a time of use of two years or less, industrial sites, workshops, ***depots*** and non-residential ***infrastructural supply stations, such as transformer stations, substations, pressure***

which are used by a sector covered by a national sectoral agreement on energy performance;

control plants, railway constructions, as well as service buildings with very low energy and heating or cooling demand and non-residential agricultural buildings which are used by a sector covered by a national sectoral agreement on energy performance;

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 960

Angelika Niebler, Markus Pieper, Christian Doleschal, Christian Ehler, Franc Bogovič, Jens Gieseke, Marion Walsmann

Proposal for a directive

Article 9 – paragraph 5 – point e a (new)

Text proposed by the Commission

Amendment

(e a) buildings for which renovation is technically not possible or economically not reasonable or feasible.

Or. en

Amendment 961

Andreas Glück, Emma Wiesner, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Nils Torvalds

Proposal for a directive

Article 9 – paragraph 5 – point e a (new)

Text proposed by the Commission

Amendment

(e a) buildings for which it would not be technically, functionally and economically feasible;

Or. en

Justification

The assessment of technical, functional and economic feasibility should always remain decisive to take renovation decisions in order to achieve rapid and cost-effective decarbonisation of the building sector.

Amendment 962

Pernille Weiss

Proposal for a directive

Article 9 – paragraph 5 – point e a (new)

Text proposed by the Commission

Amendment

(e a) new buildings which are planned to be demolished within 10 from this Directive enter into force;

Or. en

Justification

It does not make sense to apply the minimum energy performance standards to buildings which are planned to be demolished soon from a LCA perspective.

Amendment 963

András Gyürk

Proposal for a directive

Article 9 – paragraph 6

Directive 2010/31/EU

Article 9 – paragraph 6

Text proposed by the Commission

Amendment

6. Member States shall take the measures necessary to ensure the implementation of minimum energy performance standards referred to in paragraphs 1 and 2, including appropriate monitoring mechanisms and penalties in accordance with Article 31.

deleted

Or. en

Justification

Minimum energy performance standards will cause significant economic challenges especially for average and low-income households in single-family houses and multi-apartment buildings. The proposal may cause unreasonable costs for some individuals, taking into account their economic capacity and the value of their buildings. There is a risk that MEPS will have a negative impact on the willingness to improve the energy efficiency of buildings. Energy efficiency requirements for existing buildings should be linked only to renovation needs.

Amendment 964

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Henna Virkkunen, Maria da Graça Carvalho, Radan Kanev, Christian Ehler, Marion Walsmann

Proposal for a directive Article 9 – paragraph 6

Text proposed by the Commission

6. Member States shall take the measures necessary to ensure the implementation of minimum energy performance standards referred to in paragraphs 1 and 2, including appropriate monitoring mechanisms **and penalties** in accordance with Article 31.

Amendment

6. Member States shall take the measures necessary to ensure the implementation of minimum energy performance standards referred to in paragraphs 1 and 2, including appropriate monitoring mechanisms in accordance with Article 31.

Or. en

Amendment 965

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive Article 9 – paragraph 6 a (new)

Text proposed by the Commission

Amendment

6 a. When building renovations fulfilling the requirements of Article 9 paragraph 1 of this Directive result in a 30% reduction in primary energy demand, the entire building and thus the entire loan for its acquisition and ownership will be considered compliant with Sections 7 of Annex I and Annex II of Commission Delegated Regulation (EU) No 2021/2139.

Justification

This aims to ensure that the minimum energy performing standards are aligned with the EU Taxonomy's Technical Screening Criteria. When renovations fulfilling the EPBD requirements result in a 30% reduction in primary energy demand, the entire building and thus the entire loan, also for its acquisition and ownership, should be considered EU Taxonomy compliant. If the entire loan is not considered EU Taxonomy compliant it is necessary to split loans which will increase costs for the borrower. Higher costs can decrease demand for green loans and green funding

Amendment 966

Seán Kelly, Tom Berendsen, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev, Christian Ehler

Proposal for a directive**Article 9 a (new)**

Text proposed by the Commission

Amendment

Article 9 a***Solar energy in buildings***

- 1. Member States shall ensure that by 1 January 2027 all new buildings are designed to optimise their solar energy generation potential on the basis of the solar irradiance of the site and enable the cost-effective installation of solar technologies.***
- 2. Member States shall ensure that all existing buildings undergoing major renovation, renovation of the roof, or replacement of technical building systems are combined with the deployment of suitable solar energy installations.***
- 3. Member States shall ensure that suitable solar energy installations are deployed:***
 - (a) by 1 January 2027, on all new public and commercial buildings with useful floor area larger than 250 square meters;***
 - (b) by 31 December 2030, on all existing public and commercial buildings with useful floor area larger than 250 square***

meters; and

(c) by 31 December 2033, on all existing buildings. Member States shall define and make publicly available national criteria for the practical implementation of these obligations, in accordance with the assessed technical and economic potential of the solar energy installations and the characteristics of the buildings covered by this obligation.

4. Member States shall establish a pathway with numerical targets for their national contribution to the deployment of solar energy and heat pumps in buildings in their national building renovation plans in accordance with Article 3. Member States shall conduct an assessment of needed grid capacity for this deployment and to identify remaining barriers.

5. Member States shall ensure that their regulatory frameworks provide the necessary administrative, technical and financial capacities and incentives for the deployment of solar energy in buildings, including in combination with technical building systems such as the electrical installation, domestic batteries or heat pumps for self consumption. Member States shall ensure that representatives of national regulatory authorities, distribution system operators, renewable energy communities, consumer organisations storage providers and other stakeholders assess the need for necessary additional measures with regard to the distribution system to achieve the objectives of this Article and conduct an assessment of needed grid capacity. This shall include the required connection and procurement of flexible distributed energy generation in line with the provisions of the Regulation (EU) 2019/943^{1a} and the Directive (EU) 2019/944^{1b}, in particular considering a necessary level-playing field and fair remuneration for active customers and energy communities.

6. Member States shall encourage

measures to ensure the fire safety of solar energy installations in buildings, including in combination with technical building systems such as domestic batteries or heat pumps for self-consumption.

^{1a} Regulation (EU) 2019/943 of the European Parliament and of the Council of 5 June 2019 on the internal market for electricity (OJ L 158, 14.6.2019, p. 54). Directive 2012/27/EU (OJ L158, 14.6.2019, p. 125).

^{1b} Directive (EU) 2019/944 of the European Parliament and of the Council of 5 June 2019 on common rules for the internal market for electricity and amending Directive 2012/27/EU (OJ L158, 14.6.2019, p. 125).

Or. en

Amendment 967
Ciarán Cuffe

Proposal for a directive
Article 9 a (new)

Text proposed by the Commission

Amendment

Article 9 a

1. Member States shall ensure that by [the date of entry into force of this Directive] all new buildings are designed to optimise their solar energy generation potential on the basis of the solar irradiance of the site and enable the cost-effective installation of solar technologies.

2. Member States shall ensure that all existing buildings undergoing major renovation, renovation of the building skin, replacement of technical building systems, equipment with electricity storage, EV-charging infrastructure, heat pump technology, or building automation and control systems, combine such

renovation and equipment with the deployment of suitable solar energy installations.

3. Member States shall ensure that suitable solar energy installations are deployed:

(a) by the date of entry into force, on all new public, non-residential buildings;

(b) by 31 December 2024, on all new residential buildings;

(c) by 31 December 2027, on all existing non-residential buildings and roofed carparks; and

(d) by 31 December 2030, on all existing buildings.

The obligations under subparagraph (c) and (d) shall be combined with attic and roof insulation where appropriate.

4. Member States shall establish a pathway with numerical targets for their national contribution to the deployment of solar energy and heat pumps in buildings in their national building renovation plans in accordance with Article 3, with a view to reaching the objective of at least 70 million solar energy installations by 2030 and at least 10 million heat pumps installations in buildings by 2027.

5. Member States shall ensure that their regulatory frameworks provide the necessary administrative, technical and financial capacities and incentives for the deployment of solar energy in buildings, including in combination with technical building systems such as domestic batteries or heat pumps for self consumption.

Member States shall ensure that representatives of national regulatory authorities, distribution system operators, renewable energy communities, consumer organisations storage providers and other stakeholders assess the need for necessary additional measures with regard to the distribution system to achieve the objectives of this Article. This shall

include the required connection and procurement of flexible distributed energy generation in line with the provisions of the Regulation (EU) 2019/943 ^{1a} and the Directive (EU) 2019/944 ^{1b}, in particular considering a necessary level-playing field and fair remuneration for active customers and energy communities.

^{1a} Regulation (EU) 2019/943

^{1b} Directive (EU) 2019/944

Or. en

Justification

This amendment is necessary as it is inextricably linked to other admissible amendments.

Amendment 968

Beata Szydło, Ladislav Ilčić, Elżbieta Kruk, Zdzisław Krasnodębski, Grzegorz Tobiszowski

**Proposal for a directive
Article 9 a (new)**

Text proposed by the Commission

Amendment

Article 9 a

Zero emission buildings

Member States shall take necessary measures to ensure that the energy use of a new or renovated zero-emission building comply with a maximum threshold established at the Member State level in their building renovation plans. This maximum threshold shall be set with a view of achieving at least cost optimal levels.

Member States shall take necessary measures to ensure that the operational greenhouse gas emissions of a new or renovated zero-emission building comply with a maximum threshold established at the Member State level in their building renovation plans.

Member States may decide to adjust both thresholds as referred to in this subparagraph for renovated buildings.

1a Member States shall ensure that the total annual primary energy use of a new or renovated zero-emission building is covered [in priority], where technically and economically feasible, by:

(a) energy from renewable sources generated onsite fulfilling the criteria of Article 7 of Directive (EU) 2018/2001 [amended RED];

(b) energy from electricity grid

(c) energy from renewable sources provided from a renewable energy community within the meaning of Article 22 of Directive (EU) 2018/2001 [amended RED]; or

(d) energy from an efficient district heating and cooling system in accordance with Article 24(1) of Directive (EU) .../... [recast EED].

2. Member States shall ensure that a zero-emission building does not cause any on-site carbon emissions from fossil fuels.

Or. en

Justification

AM consistent with changes introduced to art. 2

Amendment 969

Isabella Tovagliari, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

**Proposal for a directive
Article 10**

Text proposed by the Commission

Amendment

Article 10

deleted

Renovation passport

1. By 31 December 2023, the Commission shall adopt delegated acts in accordance

with Article 29 supplementing this Directive by establishing a common European framework for renovation passports, based on the criteria set out in paragraph 2.

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

3. The renovation passport shall comply with the following requirements:

(a) it shall be issued by a qualified and certified expert, following an on-site visit;

(b) it shall comprise a renovation roadmap indicating a sequence of renovation steps building upon each other, with the objective to transform the building into a zero-emission building by 2050 at the latest;

(c) it shall indicate the expected benefits in terms of energy savings, savings on energy bills and operational greenhouse emission reductions as well as wider benefits related to health and comfort and the improved adaptive capacity of the building to climate change; and

(d) it shall contain information about potential financial and technical support.

Or. it

Justification

In its current configuration, this passport would appear to constitute more of a bureaucratic burden than provide genuine support for decarbonisation.

Amendment 970
Francesca Donato

Proposal for a directive
Article 10

Text proposed by the Commission

Amendment

Renovation passport

1. By 31 December 2023, the Commission shall adopt delegated acts in accordance with Article 29 supplementing this Directive by establishing a common European framework for renovation passports, based on the criteria set out in paragraph 2.

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

3. The renovation passport shall comply with the following requirements:

(a) it shall be issued by a qualified and certified expert, following an on-site visit;

(b) it shall comprise a renovation roadmap indicating a sequence of renovation steps building upon each other, with the objective to transform the building into a zero-emission building by 2050 at the latest;

(c) it shall indicate the expected benefits in terms of energy savings, savings on energy bills and operational greenhouse emission reductions as well as wider benefits related to health and comfort and the improved adaptive capacity of the building to climate change; and

(d) it shall contain information about potential financial and technical support.

Or. en

Justification

It would be one more burden on citizens and energy performance certificates are a most suitable tool. Moreover, it would be a mean for potential easy abuses on the exercise of owners' rights (e.g. inhibitions or limitations on the sale) and it would have an immediate negative impact on the value of buildings.

Amendment 971

1. By 31 December 2023, the Commission shall adopt delegated acts in

accordance with Article 29 supplementing this Directive by establishing a common European framework for renovation passports, based on the criteria set out in paragraph 2.

accordance with Article 29 supplementing this Directive by establishing a common European framework for **voluntary** renovation passports, based on the criteria set out in paragraph 2.

Or. en

Amendment 976
Marisa Matias

Proposal for a directive
Article 10 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1 a. By 31 December 2023, the Commission shall prepare a guidance document with technical guidelines to support Member States in the implementation of the Renovation Passport scheme and to promote a one-to-three stage deep renovation on the road to zero-emission building status by 2050.

Or. en

Amendment 977
Isabella Tovagliari, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

Proposal for a directive
Article 10 – paragraph 2

Text proposed by the Commission

Amendment

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

deleted

Or. it

Justification

The renovation passport has no place in this directive.

Amendment 978

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López, Tsvetelina Penkova, Nicolás González Casares

Proposal for a directive

Article 10 – paragraph 2

Text proposed by the Commission

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

Amendment

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1 ***if requirements established in paragraph 3 are not included in the energy performance certificates scheme. In that case, Member States can update their passport scheme to bring it into line with the renovation passports in order to achieve a unitary system across the European Union.***

Or. en

Amendment 979

Tsvetelina Penkova, Marcos Ros Sempere, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Carlos Zorrinho, Marek Paweł Balt, Csaba Molnár, Lina Gálvez Muñoz, Adriana Maldonado López

Proposal for a directive

Article 10 – paragraph 2

Text proposed by the Commission

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

Amendment

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1. ***Member States shall ensure that building renovation passports are made available at no costs for vulnerable households.***

Amendment 980

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin Hojsík

Proposal for a directive

Article 10 – paragraph 2

Text proposed by the Commission

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports **based on** the common framework established in accordance with paragraph 1.

Amendment

2. By 31 December 2024, Member States shall introduce a scheme of renovation passports **implementing** the common framework established in accordance with paragraph 1.

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 981

Angelika Niebler, Christian Doleschal, Christian Ehler, Franc Bogovič, Jens Gieseke, Marion Walsmann

Proposal for a directive

Article 10 – paragraph 2

Text proposed by the Commission

2. By 31 December 2024, Member States **shall** introduce a scheme of renovation passports based on the **common framework established in accordance with paragraph 1**.

Amendment

2. By 31 December 2024, Member States **may** introduce a scheme of renovation passports based on the **on the energy performance certificates described in Article 16**.

Amendment 982

Beata Szydło, Ladislav Ilčík, Elżbieta Kruk, Zdzisław Krasnodębski, Grzegorz Tobiszowski

Proposal for a directive

Article 10 – paragraph 2

Text proposed by the Commission

2. **By 31 December 2024**, Member States **shall** introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

Amendment

2. Member States **may** introduce a scheme of renovation passports based on the common framework established in accordance with paragraph 1.

Or. en

Justification

Amendment consistent with the voluntary approach

Amendment 983

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López, Tsvetelina Penkova, Nicolás González Casares

Proposal for a directive

Article 10 – paragraph 2 a (new)

Text proposed by the Commission

Amendment

2 a. Member States shall ensure that the renovation passport is duly financially supported as part of national building renovation programmes in order to not create a barrier for building owners, particularly for low-income and vulnerable households, and that renovation passports are specifically issued free of charge to homeowners, for which the dwelling is a sole residential property.

Or. en

Amendment 984

Isabella Tovaglieri, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

Proposal for a directive

Article 10 – paragraph 3 – introductory part

Text proposed by the Commission

Amendment

3. The renovation passport shall comply with the following requirements:

3. The **voluntary** renovation passport shall comply with the following requirements:

Or. it

Justification

If the passport is to be introduced it should be voluntary.

Amendment 985

Marisa Matias

Proposal for a directive

Article 10 – paragraph 3 – point a

Text proposed by the Commission

Amendment

(a) it shall be issued by a qualified and certified expert, following an on-site visit;

(a) it shall be issued, ***both digitally and in a design suitable for the printed format***, by a qualified and certified expert, following an on-site visit ***and a joined assessment of the owner(s)' retrofit project that integrates the potential non-energy related dimensions of the owner(s)' project, such as rooms' use reallocation***;

Or. en

Amendment 1009

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Nicola Danti

Proposal for a directive

Article 11 – paragraph 1 – introductory part

Text proposed by the Commission

Amendment

1. Member States shall, for the purpose of optimising the energy use of technical building systems, set system requirements in respect of the overall energy performance, the proper installation, and the appropriate dimensioning, adjustment and control of the technical building systems which are installed in new or existing buildings. When setting up the requirements, Member States shall take account of design conditions and typical or average operating conditions.

1. Member States shall, for the purpose of optimising the energy use of technical building systems, set system requirements **using energy saving technologies**, in respect of the overall energy performance, the proper installation, and the appropriate dimensioning, adjustment and control of the technical building systems which are installed in new or existing buildings. When setting up the requirements, Member States shall take account of design conditions and typical or average operating conditions.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1010

Marisa Matias

Proposal for a directive

Article 11 – paragraph 1 – introductory part

Text proposed by the Commission

Amendment

1. Member States shall, for the purpose of optimising the energy use of technical building systems, set system requirements in respect of the overall energy performance, the proper installation, and the appropriate dimensioning, adjustment and control of the technical building systems which are installed in new or existing buildings. When setting up the requirements, Member States shall **take account of design conditions and typical or average operating conditions**.

1. Member States shall, for the purpose of optimising the energy use of technical building systems, set system requirements in respect of the overall energy performance, the proper installation, and the appropriate dimensioning, adjustment and control of the technical building systems which are installed in new or existing buildings. When setting up the requirements, Member States shall **require the use of technologies in the five highest efficiency classes as per REG 811/2013 and REG812/2013**.

Or. en

Amendment 1011

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Henna Virkkunen, Franc Bogovič, Maria da Graça Carvalho, Radan Kanev, Christian Ehler

Proposal for a directive

Article 11 – paragraph 1 – subparagraph 2

Text proposed by the Commission

Amendment

Member States may set requirements related to the greenhouse gas emissions of, or to the type of fuel used by heat generators provided that such requirements do not constitute an unjustifiable market barrier.

Member States may set requirements related to the **lifecycle of** greenhouse gas emissions of, or to the type of fuel used by heat generators provided that such requirements do not constitute an unjustifiable market barrier **and are technologically neutral**.

Or. en

Amendment 1012

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 11 – paragraph 1 – subparagraph 2

Text proposed by the Commission

Amendment

Member States may set requirements

Member States may set requirements

related to the greenhouse gas emissions *of, or to the type of fuel* used by heat generators provided that such requirements do not constitute an unjustifiable market barrier.

related to the greenhouse gas emissions used by heat generators provided that such requirements do not constitute an unjustifiable market barrier.

Or. en

Justification

The proposed legal basis for national bans is not compatible with the principle of technological neutrality. It would hamper the contribution of certain technologies to the EU's decarbonisation efforts.

Amendment 1013

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Massimiliano Salini, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Christian Ehler

Proposal for a directive

Article 11 – paragraph 1 – subparagraph 3

Text proposed by the Commission

Member States shall ensure that the requirements they set for technical building systems reach at least the latest cost-optimal levels.

Amendment

Member States shall ensure that the requirements they set for technical building systems reach at least the latest cost-optimal levels *and point to the relevant economic and environmental optimisation standards for their dimensioning when available.*

Or. en

Amendment 1014

Ciarán Cuffe

Proposal for a directive

Article 11 – paragraph 1 – subparagraph 3 a (new)

Text proposed by the Commission

Amendment

Member States shall prioritise the roll out of renewable based technical building systems in buildings that are not connected to the gas grid.

Justification

The amendment is inextricably linked to other admissible amendments.

Amendment 1015

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin Hojsík

Proposal for a directive

Article 11 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1 a. Member States shall ensure that the replacement of outdated and inefficient technical building systems is part of the steps set out in a renovation passport, in accordance with the Energy Efficiency First Principle as defined by (18) of Article 2 of Regulation (EU) 2018/1999.

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1016

Pernille Weiss

Proposal for a directive

Article 11 – paragraph 1 a (new)

Text proposed by the Commission

Amendment

1 a. Member States shall ensure that the replacement of outdated and inefficient technical building systems is part of the steps set out in a renovation passport if the replacement is technically and economically feasible.

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1017

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev, Christian Ehler

Proposal for a directive

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States shall require new buildings, where technically and economically feasible, to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when heat generators are replaced, where technically and economically feasible.

Amendment

2. Member States shall require new buildings, where technically and economically feasible, to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated **or cooled** zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when heat **or cold** generators are replaced, where technically and economically feasible.

Or. en

Proposal for a directive

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States **shall** require new buildings, where technically and economically feasible, to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when

Amendment

2. Member States **may** require new buildings, where technically and economically feasible, to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when

heat generators are replaced, where technically and economically feasible.

heat generators are replaced, where technically and economically feasible.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1019

Morten Petersen, Claudia Gamon

Proposal for a directive

Article 11 – paragraph 2

Text proposed by the Commission

2. Member States shall require new buildings, ***where technically and economically feasible***, to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when heat generators are replaced, ***where technically and economically feasible***.

Amendment

2. Member States shall require new buildings to be equipped with self-regulating devices for the separate regulation of the temperature in each room or, where justified, in a designated heated ***or cooled*** zone of the building unit. In existing buildings, the installation of such self-regulating devices shall be required when heat ***or cold*** generators are replaced ***and, in any event, at the latest by December 2026***.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1020

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev, Christian Ehler

Proposal for a directive

Article 11 – paragraph 2 a (new)

Text proposed by the Commission

Amendment

2 a. Member States shall require new buildings and existing buildings when replacing heat or cold generators and, to be equipped with dynamic balancing at relevant zone level for Technical Building Systems.

Or. en

Amendment 1021
Morten Petersen, Claudia Gamon

Proposal for a directive
Article 11 – paragraph 3

Text proposed by the Commission

3. Member States shall require zero-emission buildings to be equipped with measuring and control devices for the monitoring and regulation of indoor air quality. In existing buildings, the installation of such devices shall be required, where technically and economically feasible, when a building undergoes a major renovation.

Amendment

3. Member States shall require zero-emission buildings to be equipped with measuring and control devices for the monitoring and regulation of indoor air **and environmental** quality. In **new and existing buildings, residential and non-residential buildings with an effective rated output for heating systems, cooling systems or systems for combined space heating and cooling over 70kW, public buildings and buildings providing social services, such as education, health and social assistance**, the installation of such devices shall be required **by 31 December 2026**, where technically and economically feasible, **at relevant unit level** when a building undergoes a major renovation.

The Indoor Air or Environmental Quality indicators to be monitored should at least include:

(a) Carbon dioxide (CO₂);

(b) Temperature (T).

Member States shall ensure that selected data on indoor air quality collected through such devices is uploaded to the national database for energy performance of buildings pursuant to Article 19.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1022

Seán Kelly, Tom Berendsen, Pernille Weiss, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev

Proposal for a directive

Article 11 – paragraph 3

Text proposed by the Commission

3. Member States shall require zero-emission buildings to be equipped with measuring and control devices for the monitoring and regulation of indoor air quality. In existing buildings, the installation of such devices shall be required, where technically and economically feasible, when a building undergoes a major renovation.

Amendment

3. Member States shall require zero-emission buildings to be equipped with measuring and control devices for the monitoring and regulation of indoor ***and environmental*** air quality. In existing ***and new*** buildings, the installation of such devices shall be required ***in residential and non-residential buildings with an effective rated output for heating systems, cooling systems or systems for combined space heating and cooling of over 70kW.*** ***Member States may provide derogations to this threshold if economic and technical unfeasibility is demonstrated.***

The installation of such devices shall be required where technically and economically feasible, when a building undergoes a major renovation. ***The Indoor Air and Environmental Quality indicators to be monitored should at least include:***

(a) Carbon dioxide (CO₂);

(b) Temperature (T);

(c) Relative Humidity (RH);

(d) Particulate Matter (PM₁);

(e) Particulate Matter (PM_{2.5});

(f) Daylight Illuminance Level (DIL);

(g) Volatile Organic Compounds (VOC);

Amendment 1027

Isabella Tovaglieri, Gianna Gancia, Elena Lizzi, Matteo Adinolfi, Markus Buchheit, Paolo Borchia

Proposal for a directive

Article 11 – paragraph 4

Text proposed by the Commission

Amendment

4. *Member States shall ensure that, when a technical building system is installed, the overall energy performance of the altered part, and where relevant, of the complete altered system, is assessed. The results shall be documented and passed on to the building owner, so that they remain available and can be used for the verification of compliance with the minimum requirements laid down pursuant to paragraph 1 and the issue of energy performance certificates.* **deleted**

Or. it

Justification

Assessments made following installation and data transmission are not useful for the purposes of this directive.

Amendment 1028

Angelika Niebler, Christian Doleschal, Markus Pieper, Christian Ehler, Franc Bogovič, Jens Gieseke, Marion Walsmann

Proposal for a directive Article 11 – paragraph 4

Text proposed by the Commission

Amendment

4. *Member States shall ensure that, when a technical building system is installed, the overall energy performance of the altered part, and where relevant, of the complete altered system, is assessed. The results shall be documented and passed on to the building owner, so that they remain available and can be used for the verification of compliance with the minimum requirements laid down pursuant to paragraph 1 and the issue of energy performance certificates.* **deleted**

Amendment 1029

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova

Proposal for a directive

Article 11 – paragraph 4

Text proposed by the Commission

4. Member States shall ensure that, when a technical building system is installed, the overall energy performance of the **altered part, and where relevant, of the complete altered system, is assessed**. The results shall be documented and passed on to the building owner, so that they remain available and can be used for the verification of compliance with the minimum requirements laid down pursuant to paragraph 1 and the issue of energy performance certificates.

Amendment

4. Member States shall ensure that, when a technical building system **or part of it is installed or altered**, the overall energy **and, where applicable, life-cycle GWP** performance of the complete system, is **improved and supported by in-use performance data**. The results shall be documented and passed on to the building owner **and tenant**, so that they remain available and can be used for the verification of compliance with the minimum requirements laid down pursuant to paragraph 1 and the issue of energy performance certificates.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1030

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López, Tsvetelina Penkova, Nicolás González Casares

Proposal for a directive

Article 11 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4 a. Member States shall include assessment of energy efficiency of electrical installations of non-residential buildings into existing electrical safety inspections schemes and pointing to the available standard for their optimal design, dimensioning, management and

monitoring.

Proposal for a directive

Article 11 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4 a. Member States shall establish a deadline to ban all new fossil-fuel heating and cooling systems by 2025, coupled with requirements to phase-out by 2035 all existing fossil fuel systems as part of all renovations.

Or. en

Amendment 1032

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin Hojsík

Proposal for a directive

Article 11 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4 a. The Commission shall adopt delegated acts to develop an EU Indoor Environmental Quality framework and calculation methodologies.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1033

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López

Proposal for a directive
Article 11 – paragraph 4 b (new)

Text proposed by the Commission

Amendment

4 b. Member States shall establish a deadline to ban all new fossil-fuelled heating and cooling systems as part of all renovations. This should be done through a transition from the elimination of incentives to the elimination of incentives and public funding for any fossil fuels from a date to be determined, and incentives and funding to encourage the switch from fossil-fuelled heating and cooling systems to electric, accompanied by investment in housing that improves the energy efficiency certificate.

Or. en

Amendment 1034

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin Hojsík

Proposal for a directive
Article 11 – paragraph 4 b (new)

Text proposed by the Commission

Amendment

4 b. Member States shall require new buildings and existing buildings when replacing heat or cold generators and, in any event, by 31 December 2026 to be equipped with static or dynamic balancing at relevant zone level for Technical Building Systems;

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1035

Morten Petersen, Christophe Grudler, Claudia Gamon

Proposal for a directive
Article 11 – paragraph 4 c (new)

Text proposed by the Commission

Amendment

4 c. Member States shall lay down requirements to ensure that, where technically and economically feasible, non-residential buildings with an effective rated output for heating systems, cooling systems or systems for combined space heating, cooling and ventilation of over 290 kW are equipped with building automation and control systems by 31 December 2024 by 2025. The threshold for the effective rated output shall be lowered to 70 kW removed by 31 December 2029 for new non-residential buildings. The requirements should be considered as economically feasible when the return on investments is inferior to 6 years.

The building automation and control systems shall be capable of:

(a) continuously monitoring, logging, analysing and allowing for adjusting energy use;

(b) benchmarking the building's energy efficiency, detecting losses in efficiency of technical building systems, and informing the person responsible for the facilities or technical building management about opportunities for energy efficiency improvement;

(c) allowing communication with connected technical building systems and other appliances inside the building, and being interoperable with technical building systems across different types of proprietary technologies, devices and manufacturers;

(c a) testing the building's indoor air quality;

(c b) The Commission shall adopt delegated acts to develop a common standardised data template to identify which inspection data can be provided

digitally to simplify and, enhance use digital inspections;and

(c c) Member States shall clearly identify, frame and justify the parameters defining economic feasibility.

Or. en

Justification

Para 7 of Article 20 moved here.

Amendment 1036

Morten Petersen, Christophe Grudler, Claudia Gamon

Proposal for a directive

Article 11 – paragraph 4 d (new)

Text proposed by the Commission

Amendment

4 d. Member States shall lay down requirements to ensure that from 1 January 2025, new residential buildings and residential buildings undergoing major renovations with an effective rated output for heating systems or systems for combined space heating, cooling and ventilation of under 70 kW are equipped with:

(a) the functionality of continuous electronic monitoring of systems in the building at the relevant building and unit level that measures efficiency and informs building owners or managers in case of significant variation and when system servicing is necessary;

(b) effective control and balancing functionalities to allow optimisation of generation, distribution, storage and use of energy;

(c new) where technically and economically feasible, demand side flexibility;

(d new) effective indoor air quality monitoring system, to ensure occupants' health and safety;

(e new) benchmarking the building's energy efficiency, detecting losses in efficiency of technical building systems, and informing the person responsible for the facilities or technical building management about opportunities for energy efficiency improvement, and;

(f new) allowing communication with connected technical building systems and other appliances inside the building, and being interoperable with technical building systems across different types of proprietary technologies, devices and manufacturers.

Or. en

Justification

Para 8 of Article 20 moved here.

Amendment 1037

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova

Proposal for a directive

Article 11 – paragraph 4 e (new)

Text proposed by the Commission

Amendment

4 e. Buildings that comply with Article 11, paragraph 5 and 6 shall be exempt from the requirements laid down in Article 20 paragraph 1.

Or. en

Justification

Para 9 of Article 20 moved here.

Amendment 1038

Ciarán Cuffe

Proposal for a directive

Article 11 a (new)

Article 11 a

Indoor Environmental Quality

1. Member States shall set requirements for the implementation of adequate indoor environmental quality standards in buildings in order to maintain a healthy indoor environment quality.

2. Member States shall set requirements [by the date referred to in Article 32] according to measurable indicators based on to those of the LEVELs framework^{1a}:

–Indoor air quality conditions based on:

- The ventilation rate in air changes per hour***
- Relative humidity and temperature***
- CO₂***

–Target pollutant limits to be set from indoor and outdoor sources, on Volatile Organic Compounds, classified as Carcinogenic, Mutagenic, or toxic for Reproduction according to Regulation (EC) No 1272/2008^{1b}, including mould, formaldehyde, as well as the elimination of asbestos.

–Acoustic indoor comfort, such as the Control of the reverberation time and background noise level and speech intelligibility.

–Adequate daylight levels.

3. The Commission is empowered to adopt delegated acts in accordance with Article 29 to supplement this Directive by establishing a methodology framework for calculating the indoor environmental quality standards.

4. Member States shall ensure that, after buildings undergo major renovation, they comply with minimal indoor environmental quality standards.

^{1a} LEVELS 4.1 & 4.4.

<https://susproc.jrc.ec.europa.eu/product-bureau/product-groups/412/documents>

^{1b} Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures, amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006.)

Or. en

Justification

This Directive recognises the importance of indoor climate conditions and a healthy indoor environment in Articles 1, 2, 5, 7, 8 and 11. The new article is inextricably linked to the existing provisions and suggests an indicator and policy tool to advance work in this field in line with the named provisions and the subject matter of this Directive as spelled out in Article 1(1).

Amendment 1039 **Pietro Fiocchi**

Proposal for a directive **Article 12 – paragraph 1 – introductory part**

Text proposed by the Commission

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, ***with more than five*** parking spaces, Member States shall ensure:

Amendment

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, ***irrespective the number of*** parking spaces, Member States shall ensure ***by end 2025***:

Or. en

Amendment 1040 **Morten Petersen, Claudia Gamon, Iskra Mihaylova, Martin Hojsík, Nicola Danti**

Proposal for a directive **Article 12 – paragraph 1 – introductory part**

Text proposed by the Commission

Amendment

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, with more than **five** parking spaces, Member States shall ensure:

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, with more than **three** parking spaces, Member States shall ensure:

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1041

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 12 – paragraph 1 – introductory part

Text proposed by the Commission

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, with more than **five** parking spaces, Member States shall ensure:

Amendment

1. With regard to new non-residential buildings and non-residential buildings undergoing major renovation, with more than **ten** parking spaces, Member States shall ensure:

Or. en

Justification

Such detailed and prescriptive requirements for bicycles' parking space are beyond the scope of the Directive and may pose many logistical and legal challenges (such as space limit, ownership of existing parking constraints, etc).

Amendment 1042

Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive

Article 12 – paragraph 1 – introductory part

Text proposed by the Commission

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of pre-cabling for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) the installation of pre-cabling for every parking space, **for example by laying empty pipes**, to enable the installation at a later stage of recharging points for electric vehicles - **to the extent that this is technically and economically feasible and justifiable**; and

Or. en

Amendment 1049

Tsvetelina Penkova, Marcos Ros Sempere, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Carlos Zorrinho, Marek Paweł Balt, Lina Gálvez Muñoz, Adriana Maldonado López

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of pre-cabling for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) the installation of pre-cabling **that shall also include space for information lines (LAN cables)** for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Or. en

Amendment 1050

Pernille Weiss

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of pre-cabling for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) **that** the installation of pre-cabling for every parking space to enable the installation at a later stage of recharging points for electric vehicles **will be assessed**; and

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1051

Beata Szydło, Ladislav Ilčí, Elżbieta Kruk, Zdzisław Krasnodębski, Grzegorz Tobiszowski

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of pre-cabling for **every** parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) the installation of pre-cabling for **at least 50% of** parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Or. en

Justification

Amendment to introduce a more flexible approach mindful of infrastructural challenges

Amendment 1052

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of **pre-cabling** for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) the installation of **ducting** for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Or. en

Justification

The current Directive demanded the installation of ducting infrastructure instead of pre-cabling. Pre-cabling requires further and much more significant investments than ducting, while the demand for infrastructure is progressing slowly. Ducting provides a more optimal approach in this regard. Pre-cabling is also irresponsible from a sustainability perspective, specifically considering resource scarcity.

Amendment 1053

Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive

Article 12 – paragraph 1 – point b

Text proposed by the Commission

(b) the installation of **pre-cabling** for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Amendment

(b) the installation of **ducting** for every parking space to enable the installation at a later stage of recharging points for electric vehicles; and

Or. en

Amendment 1054

Andreas Glück, Emma Wiesner, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Bart Groothuis

Proposal for a directive

Article 12 – paragraph 1 – point c

Text proposed by the Commission

(c) **at least one bicycle parking space for every car parking space;**

Amendment

deleted

Or. en

Justification

Although zero-emission forms of mobility should be encouraged, bicycles and bicycle parking spaces do not contribute to the energy performance of buildings, and should therefore not be part of the scope of this Directive. On top of that, local geographical and spatial planning differences and the consequent varying needs for bicycle parking spaces require a more flexible approach.

Amendment 1055

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 12 – paragraph 1 – point c

Text proposed by the Commission

Amendment

**(c) at least one bicycle parking space deleted
for every car parking space;**

Or. en

Justification

this burden seems to be a bit excessive.

2. With regard to all non-residential buildings with more than twenty parking spaces, Member States shall ensure the installation of at least one recharging point for every ten parking spaces, **and at least one bicycle parking space for every car parking space, by 1 January 2027**. In case of buildings owned or occupied by public authorities, Member States shall ensure **pre-cabling** for at least one in two parking spaces by 1 January **2033**.

Amendment

2. With regard to all non-residential buildings with more than twenty parking spaces, Member States shall ensure the installation of at least one recharging point for every ten parking spaces. In case of buildings owned or occupied by public authorities, Member States shall ensure **ducting** for at least one in two parking spaces by 1 January **2038**. **Buildings of specific artistic, historical or monumental value, according to national laws, are exempted from this obligation.**

Justification

The obligation to promote the installation of recharging points must be compatible with national property and tenancy laws. A ‘right to plug’ without the right for the landlords or co-owners to legitimately oppose can deviate from the general principles of these laws and can generate further issues regarding liability and legality.

Amendment 1074

Andreas Glück, Emma Wiesner, Mauri Pekkarinen, Nicola Beer, Klemen Grošelj, Bart Groothuis

Proposal for a directive**Article 12 – paragraph 2***Text proposed by the Commission*

2. With regard to all non-residential

Amendment

2. With regard to all non-residential

buildings with more than twenty parking spaces, Member States shall ensure the installation of at least one recharging point for every ten parking spaces, **and at least one bicycle parking space for every car parking space**, by 1 January 2027. In case of buildings owned or occupied by public authorities, Member States shall ensure pre-cabling for at least one in two parking spaces by 1 January 2033.

buildings with more than twenty parking spaces, Member States shall ensure the installation of at least one recharging point for every ten parking spaces by 1 January 2027. In case of buildings owned or occupied by public authorities, Member States shall ensure pre-cabling for at least one in two parking spaces by 1 January 2033.

Or. en

Justification

Although zero-emission forms of mobility should be encouraged, bicycles and bicycle parking spaces do not contribute to the energy performance of buildings, and should therefore not be part of the scope of this Directive. On top of that, local geographical and spatial planning differences and the consequent varying needs for bicycle parking spaces require a more flexible approach.

Amendment 1075 **Pietro Fiocchi**

Proposal for a directive **Article 12 – paragraph 2**

Text proposed by the Commission

2. With regard to all non-residential buildings with more than **twenty** parking spaces, Member States shall ensure the installation of at least one recharging point for every **ten** parking spaces, and at least one bicycle parking space for every car parking space, by 1 January 2027. In case of buildings owned or occupied by public authorities, Member States shall ensure pre-cabling for at least one in two parking spaces by 1 January **2033**.

Amendment

2. With regard to all non-residential buildings with more than **ten** parking spaces, **by 1 January 2025** Member States shall ensure the installation of at least one recharging point for every **five** parking spaces, and at least one bicycle parking space for every car parking space, by 1 January 2027. In case of buildings owned or occupied by public authorities, Member States shall ensure pre-cabling for at least one in two parking spaces by 1 January **2030**.

Or. en

Amendment 1080

Andreas Glück, Emma Wiesner, Mauri Pekkarinen, Nicola Beer, Bart Groothuis

Proposal for a directive Article 12 – paragraph 3

Text proposed by the Commission

Amendment

3. Member States may adjust requirements for the number of bicycle parking spaces in accordance with paragraphs 1 and 2 for specific categories of non-residential buildings where bicycles are typically less used as a means of transport.

deleted

Or. en

Justification

Although zero-emission forms of mobility should be encouraged, bicycles and bicycle parking spaces do not contribute to the energy performance of buildings, and should therefore not be part of the scope of this Directive.

Amendment 1081

Marcos Ros Sempere, Lina Gálvez Muñoz, Adriana Maldonado López, Nicolás González Casares

Proposal for a directive

Article 12 – paragraph 3

Text proposed by the Commission

Amendment

3. Member States may adjust requirements for the number of bicycle parking spaces in accordance with paragraphs 1 and 2 for specific categories of non-residential buildings where bicycles are typically less used as a means of transport.

3. ***After due assessment of the potential for bicycle parking by a committee of experts that includes experts on active mobility, and after taking into account the results of a public consultation, and contributions by relevant stakeholders, including cycling NGOs, Member States may adjust requirements for the number of bicycle parking spaces in accordance with paragraphs 1 and 2 for specific categories of non-residential buildings where bicycles are typically less used as a means of transport. Member States that adjust their requirements for specific categories of non-residential buildings shall explain, in their national building renovation plan pursuant to Article 3, how they will compensate for these adjustments in other non-residential buildings to achieve an***

equivalent number of bicycle parking spaces linked to non-residential buildings across the Member State. Member States shall focus their compensatory bicycle parking spaces on non-residential buildings where bicycles can be used effectively, and their use promotes general active mobility.

Proposal for a directive

Article 12 – paragraph 8 – introductory part

Text proposed by the Commission

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential

Amendment

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential

buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces, ***in particular the need to obtain consent from the landlord or co-owners for a private recharging point for own use.***

buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces.

Member States may introduce measures to ensure that the time between the application for a recharging point, its installation and servicing, does not exceed a reasonable time frame as determined by the competent national authority.

Or. en

Amendment 1125

Isabella Tovaglieri, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 12 – paragraph 8 – introductory part

Text proposed by the Commission

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces, ***in particular the need to obtain consent from the landlord or co-owners for a private recharging point for own use.***

Amendment

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces.

Or. en

Justification

The obligation to promote the installation of recharging points must be compatible with national property and tenancy laws. A 'right to plug' without the right for the landlords or co-owners to legitimately oppose can deviate from the general principles of these laws and can generate further issues regarding liability and legality.

Amendment 1126

Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive

Article 12 – paragraph 8 – introductory part

Text proposed by the Commission

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces, ***in particular the need to obtain consent from the landlord or co-owners for a private recharging point for own use.***

Amendment

8. Member States shall provide for measures in order to simplify the deployment of recharging points in new and existing residential and non-residential buildings and remove regulatory barriers, including permitting and approval procedures, without prejudice to the property and tenancy law of the Member States. Member States shall remove barriers to the installation of recharging points in residential buildings with parking spaces.

Smart readiness of buildings

1. The Commission shall adopt delegated acts in accordance with Article 29 concerning an optional common Union scheme for rating the smart readiness of buildings. The rating shall be based on an assessment of the capabilities of a building or building unit to adapt its operation to the needs of the occupant and the grid and to improve its energy efficiency and overall performance.

In accordance with Annex IV, the optional common Union scheme for rating the smart readiness of buildings shall lay down :

(a) the definition of the smart readiness indicator; and

(b) a methodology by which it is to be calculated.

2. The Commission shall, by 31 December 2025, adopt a delegated act in accordance with Article 29, requiring the application of the common Union scheme for rating the smart readiness of buildings, in accordance with Annex IV, to non-residential buildings with an effective rated output for heating systems, or systems for combined space heating and ventilation of over 290 kW.

3. The Commission shall, after having consulted the relevant stakeholders, adopt

an implementing act detailing the technical modalities for the effective implementation of the scheme referred to in paragraph 1 , including a timeline for a non-committal test-phase at national level, and clarifying the complementary relation of the scheme to the energy performance certificates referred to in Article 16.

That implementing act shall be adopted in accordance with the examination procedure referred to in Article 30(3).

4. The Commission shall, by 31 December 2025, and after having consulted the relevant stakeholders, adopt an implementing act detailing the technical modalities for the effective implementation of the application of the scheme referred to in paragraph 2 to non-residential buildings with an effective rated output for heating systems, or systems for combined heating and ventilation of over 290 kW.

That implementing act shall be adopted in accordance with the examination procedure referred to in Article 30(3).

Or. en

Justification

The smart readiness of buildings should be an option

For the purpose of this Directive, building

systems data **shall include at least all** data related to the energy performance of building elements, the energy performance of building services, building automation and control systems, meters and charging points for e-mobility.

systems data **means raw** data related to the energy performance of building elements, the energy performance of building services, building automation and control systems, meters, **sensors** and charging points for e-mobility. **Data that infringes the energy service provider's intellectual property shall not be shared.**

Or. en

Amendment 1153

Morten Petersen, Claudia Gamon, Iskra Mihaylova

Proposal for a directive

Article 14 – paragraph 1 – subparagraph 1

Text proposed by the Commission

For the purpose of this Directive, building systems data shall include **at least all** data related to the energy performance of building elements, **the energy performance of building services, building automation and control systems**, meters and charging points for e-mobility.

Amendment

For the purpose of this Directive, **technical** building systems data shall include **a proportionate set of all relevant** data related to the energy performance of building elements, meters and charging points for e-mobility. **Both processed and non-processed data will be accepted under the scope of this article, as long as they meet these requirements.**

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1176

Seán Kelly, Tom Berendsen, Sara Skytvedal, Pascal Arimont, Franc Bogovič, Massimiliano Salini, Tomas Tobé, Maria da Graça Carvalho, Radan Kanev, Salvatore De Meo, Henna Virkkunen, Christian Ehler, Marion Walsmann

Proposal for a directive

Article 15 – paragraph 1

Text proposed by the Commission

1. Member States shall provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Amendment

1. Member States, ***and the EU***, shall provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Amendment 1177

Gheorghe Falcă, Marian-Jean Marinescu, Vasile Blaga

Proposal for a directive

Article 15 – paragraph 1

Text proposed by the Commission

1. Member States shall provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Amendment

1. Member States **and the EU** shall provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Amendment 1178

András Gyürk

Proposal for a directive

Article 15 – paragraph 1

Directive 2010/31/EU

Article 15 – paragraph 1

Text proposed by the Commission

1. Member States **shall** provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Amendment

1. Member States **should** provide appropriate financing, support measures and other instruments able to address market barriers and stimulate the necessary investments in energy renovations in line with their national building renovation plan and with a view to the transformation of their building stock into zero-emission buildings by 2050.

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary. Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

4. To support the mobilisation of investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

deleted

Or. en

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary.

Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

Amendment 1188

Seán Kelly, Tom Berendsen, Sara Skytvedal, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev, Henna Virkkunen, Christian Ehler

Proposal for a directive

Article 15 – paragraph 4

Text proposed by the Commission

4. To support the mobilisation of investments, Member States shall ***promote the roll-out of enabling funding and*** financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

Amendment

4. To support the mobilisation of investments, Member States shall ***ensure that*** financial tools ***are effectively put in place***, such as energy efficiency ***renovation*** loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

Member States and the relevant financial authorities shall review relevant legislation and develop supporting measures to facilitate the uptake of green renovation mortgage loans, and the development of innovative lending products dedicated to the financing of deep renovation and staged renovation in line with the steps in renovation passports the European Commission and the European Investment Bank shall envisage the establishment of an EU-wide renovation guarantee fund enabling credit institutions to reduce their risk exposure on green mortgages portfolios, and to improve access to renovation loans for vulnerable households.

Justification

Mortgage Portfolio Standards (MPS) will require additional elements to ensure their success and should be clear that they should have targets that are aligned with the 2030, 2040, 2050 targets that each Member State will establish according to their own national building renovation plan. The Commission should be empowered to specify the regulatory pathway for MPS to provide further clarity around the functioning of this innovative mechanism and ensure a level playing field.

Amendment 1189

Marisa Matias

Proposal for a directive

Article 15 – paragraph 4

Text proposed by the Commission

4. Amendment

4. To support the mobilisation of investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and ***the reduction of whole life-cycle GHG emissions***, mortgage portfolio standards ***and economic instruments to provide incentives for the application of sufficiency and circular measures such as the comprehensive list sets out in Annex IIb***. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

Amendment 1190

Morten Petersen, Christophe Grudler, Claudia Gamon, Iskra Mihaylova, Martin

Hojsik, Nicola Danti

**Proposal for a directive
Article 15 – paragraph 4**

Text proposed by the Commission

4. To support the mobilisation of investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

Amendment

4. To support the mobilisation of investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.
Member States shall ensure that information about available funding and financial tools is made available to the public in an easily accessible and transparent manner, including by digital means.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1191

Ladislav Ilčić

on behalf of the ECR Group

**Proposal for a directive
Article 15 – paragraph 4**

Text proposed by the Commission

4. To support the mobilisation of

Amendment

4. To support the mobilisation of

investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

investments, Member States shall promote the roll-out of enabling funding and financial tools, such as energy efficiency loans and mortgages for building renovation, energy performance contracting, fiscal incentives, on-tax schemes, on-bill schemes, guarantee funds, funds targeting deep renovations, funds targeting renovations with a significant minimum threshold of targeted energy savings and mortgage portfolio standards. They shall guide investments into an energy efficient public building stock, in line with Eurostat guidance on the recording of Energy Performance Contracts in government accounts.

Member States shall ensure that information about available funding and financial tools is made available to the public in an easily accessible and transparent manner.

Or. en

Justification

The upfront investment into home renovation is often expensive and complex for the average consumer. While many MS have deployed financial support and technical assistance facilities, their structure is often opaque and the sheer number and complexity of grants at the local, regional and national levels to finance home renovation often dissuades consumers from e.g. switching to a state-of-the-art heat pump. Member States should be required in a more general fashion to ensure that the funding and support landscape for energy renovations is easy to navigate for the average consumer.

Amendment 1192

Tsvetelina Penkova, Eva Kaili, Niels Fuglsang, Robert Hajšel, Miapetra Kumpula-Natri, Carlos Zorrinho, Marek Paweł Balt, Csaba Molnár

Amendment 1194
Seán Kelly, Tom Berendsen, Pascal Arimont, Maria da Graça Carvalho, Radan Kanev

Proposal for a directive
Article 15 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4 a. The Commission shall adopt a delegated act by 12 months after the entry into force of this directive specifying the design and methodology of Mortgage Portfolio Standards, including volume-based targets to be achieved by banks, aligned with the national building renovation plans.

A delegated act shall ensure that mortgage portfolio standards effectively encourage banks to achieve lending volumes and energy efficiency gains that are consistent with their national building renovation plan with a view to achieving a zero-emission building stock by 2050, and do not create counter-productive lending behaviours by banks such as reducing or refusing access to credit to vulnerable households with low EPC-rated dwellings, or narrowing down their mortgage lending to consumers purchasing houses with a high EPC rating.

Or. en

Justification

Mortgage Portfolio Standards (MPS) will require additional elements to ensure their success and should be clear that they should have targets that are aligned with the 2030, 2040, 2050 targets that each Member State will establish according to their own national building renovation plan. The Commission should be empowered to specify the regulatory pathway for MPS to provide further clarity around the functioning of this innovative mechanism and ensure a level playing field.

Amendment 1195
Ciarán Cuffe

Proposal for a directive
Article 15 – paragraph 4 a (new)

Text proposed by the Commission

Amendment

4 a. Member States shall set mandatory targets to be achieved by mortgage lenders, consistent with their national building renovation plan with a view to achieving a zero-emission building stock by 2050 at the latest.

Or. en

Justification

This amendment is to be read in addition to other amendments on this paragraph.

Amendment 1196
András Gyürk

Proposal for a directive
Article 15 – paragraph 5 – introductory part
Directive 2010/31/EU
Article 15 – paragraph 5

Text proposed by the Commission

5. Member States **shall** facilitate the aggregation of projects to enable investor access as well as packaged solutions for potential clients.

Amendment

5. Member States **should** facilitate the aggregation of projects to enable investor access as well as packaged solutions for potential clients.

Or. en

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary. Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

Amendment 1197
András Gyürk

Proposal for a directive
Article 15 – paragraph 5 – subparagraph 1
Directive 2010/31/EU
Article 15 – paragraph 5

Text proposed by the Commission

Amendment

Member States **shall** adopt measures to ensure that energy efficiency lending products for building renovations are offered widely and in a non-discriminatory manner by financial institutions and are visible and accessible to consumers. Member States **shall** ensure that banks and other financial institutions and investors receive information on opportunities to participate in the financing of the improvement of energy performance of buildings.

Member States **should** adopt measures to ensure that energy efficiency lending products for building renovations are offered widely and in a non-discriminatory manner by financial institutions and are visible and accessible to consumers. Member States **should** ensure that banks and other financial institutions and investors receive information on opportunities to participate in the financing of the improvement of energy performance of buildings.

Or. en

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary. Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

Amendment 1198

Tsvetelina Penkova, Marcos Ros Sempere, Eva Kaili, Niels Fuglsang, Robert Hajšel, Josianne Cutajar, Miapetra Kumpula-Natri, Carlos Zorrinho, Marek Paweł Balt, Csaba Molnár, Lina Gálvez Muñoz, Adriana Maldonado López

Proposal for a directive Article 15 – paragraph 6

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. 6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, ***which shall be at no cost for vulnerable households***, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small and medium-sized enterprises. ***Member States shall ensure the availability of appropriate number of one-stop-shops. Such one stop shops shall provide information on the available funding opportunities in particular grant and subsidy schemes, offering technical support, have programs specifically targeting vulnerable***

households, facilitate the access to training programs and support various awareness-raising activities.

Or. en

Amendment 1199

Isabella Tovaglieri, Marco Campomenosi, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive Article 15 – paragraph 6

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States shall ensure the establishment of technical assistance facilities, including through ***all-inclusive*** one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including ***construction***, small and medium-sized enterprises. ***Member States shall ensure the functioning of at least one one-stop-shop per region across the EU. The European Commission shall work closely with the European Investment Bank, Member States, and regions to ensure the continuity of funding for one-stop-shops throughout the duration of the Renovation Wave.***

Or. en

Justification

Migliorare il funzionamento e la diffusione degli sportelli unici è fondamentale per il rinnovamento energetico degli edifici europei. È quindi necessario attivare pienamente sportelli unici a livello locale/regionale per accompagnare i cittadini durante l'intero processo di ristrutturazione. Le autorità europee, nazionali e locali devono collaborare per garantire il funzionamento ininterrotto degli sportelli unici per la ristrutturazione energetica in tutta Europa, per accompagnare i cittadini nel loro percorso di ristrutturazione in modo il più possibile completo.

**Proposal for a directive
Article 15 – paragraph 6**

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises. ***Member States shall ensure a uniform territorial presence of technical assistance facilities by means of establishing at least one one stop-shop per region.***

Or. en

Amendment 1202

Josianne Cutajar

Proposal for a directive Article 15 – paragraph 6

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops **with all-inclusive services**, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises. ***The functioning and the continuity of funding for one-stop-shops shall be guaranteed.***

Or. en

Amendment 1203

Ladislav Ilčić

on behalf of the ECR Group

Proposal for a directive Article 15 – paragraph 6

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States shall ensure the establishment of technical assistance facilities, including through **public and private** one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Or. en

Justification

Technical assistance facilities including public and private one-stop-shops will be central to the success of planning and executing renovation efforts, especially among low-income households, who might need dedicated assistance to be accompanied in the climate and energy transition.

Amendment 1204

Marisa Matias

Proposal for a directive

Article 15 – paragraph 6

Text proposed by the Commission

6. Member States shall ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States shall ensure the establishment of technical **and social** assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Or. en

Amendment 1205

András Gyürk

Proposal for a directive

Article 15 – paragraph 6

Directive 2010/31/EU

Article 15 – paragraph 6

Text proposed by the Commission

6. Member States **shall** ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Amendment

6. Member States **should** ensure the establishment of technical assistance facilities, including through one-stop-shops, targeting all actors involved in building renovations, including home owners and administrative, financial and economic actors, including small- and medium-sized enterprises.

Or. en

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary. Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

Amendment 1206
Pernille Weiss, Maria da Graça Carvalho

Proposal for a directive
Article 15 – paragraph 6 a (new)

Text proposed by the Commission

Amendment

6 a. Member States shall engage with relevant authorities and private stakeholders in developing dedicated local, regional or national one-stop shops for energy efficiency. These one-stop shops shall be cross-sectorial and interdisciplinary and lead to locally developed projects by:

(a) advising and providing streamlined information on technical and financial possibilities and solutions to households, SMEs, micro-enterprises, public bodies;

(b) connecting potential projects with market players, in particular smaller-scale projects;

(c) advising on energy consumption behaviour with the aim of actively engaging the consumers;

(d) providing information on training programmes and education to ensure more energy efficiency professionals and to re-skill and up-skill professionals in order to meet the market needs;

(e) collecting and submitting typology aggregated data from energy efficiency projects facilitated by the one-stop-shops to the Commission. This information shall be published by the Commission in a report every second year in order to share experiences and enhance cross-border cooperation between Member States in order to promote best practice examples from different building, housing and enterprise typologies;

(f) providing holistic support to all households, with a special attention to households in energy poverty and worst

performing buildings, as well as to accredited companies and installers providing retrofit services, adapted to different housing typologies and geographical scope, and providing support covering the different stages of the retrofit project in particular to facilitate the implementation of Minimum Energy Performance Standards as set in Article 9;

(g) develop one-stop shop services for energy poor, vulnerable consumers and low-income households.

Member States shall work together with local and regional authorities to encourage cooperation amongst public bodies, energy agencies and community-led initiatives and to promote, develop and up scale one-stop shops through an integrated process. The Commission shall provide Member States with guidelines to develop these one-stop shops with the aim of creating a harmonised approach throughout the Union.

Or. en

Justification

This amendment is necessary for reasons relating to the internal logic of the text and it is inextricably linked to other admissible amendments.

Amendment 1207 **András Gyürk**

Proposal for a directive
Article 15 – paragraph 7
Directive 2010/31/EU
Article 15 – paragraph 7

Text proposed by the Commission

Amendment

7. Member States shall put in place measures and financing to promote education and training to ensure that there is a sufficient workforce with the appropriate level of skills corresponding

deleted

to the needs in the building sector.

Or. en

Justification

The proposal would most likely result in ineffective use of tax payers' money, as renovations would have to be financed even if they eventually would prove to be unnecessary. Furthermore the proposal would require the Member States to provide national funding for energy renovations, despite the fact that the use of national budget is not an EU-competence.

Amendment 1208

Isabella Tovagliari, Marco Campomenosi, Gianna Gancia, Matteo Adinolfi, Paolo Borchia

Proposal for a directive

Article 15 – paragraph 7

Text proposed by the Commission

7. Member States shall put in place measures and financing to promote education and training to ensure that there is a sufficient workforce with the appropriate level of skills corresponding to the needs in the building sector.

Amendment

7. Member States shall put in place measures and financing to promote education and training to ensure that there is a sufficient workforce with the appropriate level of skills corresponding to the needs in the building sector ***with due regard to the gender dimension. These measures, which are essential for this process to be implemented in practice, should be supported by a stable economic assistance programme for micro and SMEs, so that they can be active players in the upcoming scenario. Member States shall prioritise the allocation of part of the European Social Fund to the upskilling of blue-collar workers in energy efficiency for the construction sector. Member States shall establish registries of their construction value-chain professionals, detailing the availability of skills and skilled professionals on the market. These registries shall be updated annually, and their data shall be publicly accessible.***

Or. en

Justification

Il settore delle costruzioni ha sempre dovuto far fronte alla mancanza di professionisti qualificati, una situazione che si prevede sarà aggravata dall'introduzione delle disposizioni per la ristrutturazione energetica obbligatoria di alcuni edifici. È dunque fondamentale ottenere una mappatura delle competenze dei lavoratori disponibili, procedendo così a determinare una base concreta delle competenze e dei fabbisogni occupazionali nel settore delle costruzioni.

Amendment 1209

Jens Geier, Tsvetelina Penkova

Proposal for a directive

Article 15 – paragraph 7

Text proposed by the Commission

7. Member States shall put in place measures and financing to promote education and training to ensure that there is a sufficient workforce with the appropriate level of skills corresponding to the needs in the building sector.

Amendment

7. Member States shall put in place measures and financing to promote education and training to ensure that there is a sufficient workforce with the appropriate level of skills corresponding to the needs in the building sector.
Furthermore, Member States ensure that skilled workers in the construction industry have access to applicable minimum wage regulations and that collective wage agreements are respected. The physical burdens of skilled workers in the construction industry should also be taken into account in the area of national pension schemes.

Or. en

Justification

The shortage of skilled workers is already a significant barrier for achieving the climate-neutral EU building stock in 2050. Member States will only be able to implement their national building renovation plans if sufficient skilled workers are available. Therefore, it is important that Member States establish and implement comprehensive measures, in order to circumvent this shortage.

Amendment 1210

Patrizia Toia, Miapetra Kumpula-Natri, Tsvetelina Penkova, Marek Paweł Balt, Josianne Cutajar

Proposal for a directive
Article 15 – paragraph 7

Text proposed by the Commission

7. Member States shall put in place measures and financing to promote education and training to ensure that there **is a sufficient** workforce with the appropriate level of skills corresponding to the needs in the building sector.

Amendment

7. Member States shall **monitor the availability of skills and skilled professionals on the market and** put in place measures and financing to promote education and training **programmes** to ensure that there **are sufficiently trained and qualified** workforce **and professionals** with the appropriate level of skills corresponding to the needs in the building sector.

Member States shall put in place measures to promote participation in such programmes, in particular by micro, small and medium-sized enterprises.

Or. en
