to the Commission

Subject: Disbursement of resources from the Leonardi da Vinci programme

I am told that participants in the Leonardi da Vinci programme in Baden-Württemberg have waited in vain for months for the disbursement of resources pledged by the Commission.

How does the Commission explain the delays in the disbursement of resources from the Leonardi da Vinci programme?

Are these isolated cases, or is the problem due to the implementation of the Leonardi da Vinci programme?

When does the Commission intend to disburse the outstanding resources to the persons concerned?
