

WRITTEN QUESTION P-1232/01  
by Carlos Candal (PSE)  
to the Commission

Subject:           Restructuring the Directorate-General for Fisheries

The author of this question would like the Commission to provide information about plans to restructure the Directorate-General for Fisheries.

This restructuring is presumably motivated chiefly by the need to make the Commission's services more efficient by rationalisation and also to preserve the internal balance in the distribution of responsibilities between senior officials from the various Member States, and notably from those with stronger traditions in the relevant sectors of activity. Will the Commission say whether all these considerations are being taken into account in the restructuring of the Directorate-General in question?
