

WRITTEN QUESTION P-1398/03  
by Arie Oostlander (PPE-DE)  
to the Commission

Subject: Publication of the fortnightly newsletter Europa van Morgen

The fortnightly newsletter Europa van Morgen (Tomorrow's Europe) produced by the Commission Representation in the Netherlands has not appeared since the end of February 2003. As I understand it, this is because of an administrative slip-up. This newsletter is greatly appreciated by readers because it is accessible and provides a starting point for obtaining further information. In view of the forthcoming European elections, in particular, will the Commission make interim arrangements as soon as possible to enable publication of the newsletter to continue until such time as the new tender procedure is organised.
