

WRITTEN QUESTION P-0913/04
by Philip Bradbourn (PPE-DE)
to the Commission

Subject: Driver attestation checks

Could the Commission inform me what percentage of HGV drivers entering the EU from non-member States are regularly checked in accordance with driver attestation regulations upon reaching the EU's common frontiers, especially Germany and Austria?

What minimum percentages of such checks are the European Commission and Member States proposing in order to ensure that following enlargement the new frontiers will be fully policed in respect of driver attestation?
