

WRITTEN QUESTION P-3543/07  
by Thomas Wise (IND/DEM)  
to the Commission

Subject: Video clips posted on internet

The Commission has posted video clips on the website 'You Tube', one of which has attracted criticism in the British press for its sexual content.

Could the Commission please advise me as to whether this is to be an ongoing project?

If so, what resources, in terms of staff and budget, have been allocated to this project?
