

WRITTEN QUESTION P-3562/07
by Timothy Kirkhope (PPE-DE)
to the Commission

Subject: Floods in certain regions of the UK

Given the wide-scale flooding in particular in the West Midlands and Yorkshire regions of England, would the Commission please indicate whether an application for aid under the EU Solidarity Fund would be looked upon favourably if it were made by the British Government? Could the Commission also indicate what other instruments are available at an EU level to assist those directly affected?
