

WRITTEN QUESTION P-5484/08  
by Michl Ebner (PPE-DE)  
to the Commission

Subject: Follow-up to earlier question: poll on commercial seal-hunting

I am afraid that the Commission's reply to my four previous questions about its poll on commercial seal-hunting (E-3474/08, E-3475/08, E-3476/08 and E-3477/08) did not really address the questions put to it. Presumably my questions were either not read carefully, or not read at all.

In response to my four specific questions about the polling methods used, I received a general reply which did not in any way answer the questions raised. I urge the Commission, therefore, to take its responsibilities in this area more seriously and answer the questions I have put to it.
