Subject: VP/HR - Proposed Foreign Affairs Council discussions on health, reproductive and sexual rights

At the AFET committee meeting of 1 December 2014 you said that you wished to work towards a common position on health, reproductive and sexual rights, and that an attempt would be made at the Foreign Affairs Council meeting on 12 December 2014 to build an EU-wide consensus on this issue.

What legal definition of health, reproductive and sexual rights will those discussions be based on?

What action have you taken to date in this matter in your capacity as High Representative of the Union for Foreign Affairs and Security Policy?

What basis is there in the Treaties for the proposal to have the Foreign Affairs Council draw up an EU common position on this issue?
