to the Commission**

Rule 130

**David Campbell Bannerman (ECR)**

Subject: Proposed legislation on sovereign debt restructuring currently under consideration in the Finance Committee of the Belgian Parliament

Is the Commission aware of the proposed legislation on sovereign debt restructuring currently under consideration in the Finance Committee of the Belgian Parliament (reference of the Belgian Parliament: Session 54, DOC 1057/001)?

Does the Commission share my concern that adoption of this legislation, enabling countries to escape their legal contractual obligations, would be contrary to EU law and represent a real threat to the ability of developing countries to raise finance?
