

**Question for written answer P-005149/2018
to the Commission**

Rule 130

Rosa Estaràs Ferragut (PPE)

Subject: Aid for the transport of goods

The press of the Balearic Islands has reported the intention of the government of the Balearic Islands to establish a system that ensures adequate aid for the transport of goods for industrial companies in the Balearic Islands up to a maximum of EUR 1 million per company per year.

It has also announced the intention of the government of the Balearic Islands together with the Spanish government to initiate the procedures to modify the *de minimis* legislation on State aid so as to change the limit of EUR 200 000 for the islands.

- 1) Would the Commission be willing to amend the *de minimis* legislation and increase the threshold of EUR 200 000 as the three-year limit for companies based in the islands?
- 2) Has the Commission received any notification about this system of State aid for the transport of goods for industrial companies in the Balearic Islands?
- 3) Would the Commission approve a system such as the one described above that would allow the granting of EUR 1 million per company per year in aid?
