Subject: Prospects of the LNG Motion project in Romania

The LNG (liquefied natural gas) Motion project funded through the Innovation and Networks Executive Agency (INEA) provided initially for actions to be carried out in Romania as well as in other locations.

Could the Commission provide information on the current and future status of the project, the intentions of the project's promoter with regard to Romania and the state of negotiations between the INEA and the promoter?

Has the implementation framework of this project been modified?
