Priority question for written answer P-000829/2022 to the Commission
Rule 138
Eva Kaili (S&D)

Subject: Action plan to host refugee children from Ukraine

As the war in Ukraine continues, dramatic images and stories of children trying to escape the warn-
torn country are reaching Europe, as we watch from the safety of our homes.

In this new and rapidly changing geopolitical environment, it is the neighboring countries that suffer
the most and bear most of the pressure of the incoming refugees. Poland, Romania and Moldova,
who have not closed their borders, are particularly affected, thus indicating that the EU will
undoubtedly become the next ‘refugee harbour’.

Following the above and in the light of the current situation:

1. Will the Commission consider launching an immediate action plan to support all Ukraine’s
neighbouring countries and accept refugees from the affected area?

2. Will it consider a specialised direct helpline and safety bridge for refugee children and injured
people, whose lives are in imminent danger?

3. Will it consider collaborating with the relevant Member States to establish temporary refugee
support centres at the EU’s eastern borders?
