to the Commission**

Rule 138

**Marian-Jean Marinescu (PPE)**

Subject: Most efficient installations in the sectors covered by the EU Emissions Trading System (ETS)

On 22 June 2022, the European Parliament adopted its position on the EU ETS reform, calling for multiple measures regarding the 10 % most efficient installations in sectors covered by the EU ETS.

What is the current list of the 20 % most efficient installations in each of the sectors covered by the EU ETS?
