Subject: Legislative proposal on the screening and registration of asbestos in buildings

On 28 September 2022, the Commission presented a package of measures to better protect people and the environment from asbestos and to ensure an asbestos-free future. It announced that it would present a legislative proposal on the screening and registration of asbestos in buildings. The proposal was included in the Commission's 2023 work programme for 2023.

When will the Commission be presenting that legislative proposal?
